Consensus Part 1 Citizen:

National Economic Development Program, Part 1, Hearings Before the Subcommittee on Economic Development ...
United States. Congress. Senate. Committee on Public Works, 1971 **Obligations of Citizenship and Demands of Faith**
Nancy L. Rosenblum, 2021-04-13 Of the many challenges facing liberal democracy none is as powerful and pervasive today as those posed by religion These are the challenges taken up in *Obligations of Citizenship and Demands of Faith* an exploration of the place of religion in contemporary public life The essays in this volume suggest that two important shifts have altered the balance between the competing obligations of citizenship and faith the growth of religious pluralism and the escalating calls of religious groups for some measure of autonomy or recognition from democratic majorities The authors political theorists philosophers legal scholars and social scientists collectively argue that more room should be made for religion in today's democratic societies Though they advocate different ways of carving out and justifying the proper bounds of church and state in pluralist democracies they all write from within democratic theory and share the aim of democratic accommodation of religion Alert to national differences in political circumstances and the particularities of constitutional and legal systems these contributors consider the question of religious accommodation from the standpoint of institutional practices and law as well as that of normative theory Unique in its interdisciplinary approach and comparative focus this volume makes a timely and much needed intervention in current debates about religion and politics The contributors are Nancy L. Rosenblum Alan Wolfe Ronald Thiemann Michael McConnell Graham Walker Amy Gutmann Kent Greenawalt Aviam Soifer Harry Hirsch Gary Jacobsohn Yael Tamir Martha Nussbaum and Carol Weisbrod **Market-augmenting Government**
Omar Azfar, Charles Cadwell, 2003 Shows how governments and markets are complementary rather than opposing forces The Ethics of Everyday Medicine Erwin B. Montgomery Jr., 2020-09-24 *Ethics of Everyday Medicine* Explorations of Justice examines and analyses the relatively unexplored domain of ethics involved in the everyday practice of medicine From the author's clinical experience virtually every decision made in the day to day practice of medicine is fundamentally an ethical question as virtually every decision hinge on some value judgment that goes beyond the medical facts of the matter The first part of the book is devoted to medical decision cases in several areas of medicine These cases highlight elements of the current healthcare ecosystem involving players other than the physician and patient Insurers private commercial and governmental administrators and regulators perspectives are surfaced in point of care case analysis Part two contributes to the development of actionable tools to develop better ethical systems for the everyday practice of medicine by providing a critical analysis of Reflective Equilibrium and ethical induction from the perspective of logic and statistics The chapter on Justice discusses the neurophysiological representations of just and unjust behaviours The chapter on Ethical Theories follows describing the epistemic conundrum principlism reproducibility abstraction chaos and complexity The following chapter approaches ethical decisions from the logic and statistic perspectives The following chapter The

Patient as Parenthetical the author discusses patient centric ethics and the rise of business and government centric ethics The final chapter A Framework to Frame the Questions for Explore Further proposes a working framework to deal with current ethical issues Ethics of everyday Medicine Explorations of Justice acknowledges that there are no answers yet to the ethical dilemmas that confront the everyday practice of medicine but proposes a framework for deeper analysis and action This reading would be useful to all healthcare professionals Regulators and policy makers could also benefit from understanding how the complex healthcare environment influences medical decisions at point of care Offers an overview of the current health care ecosystem and the ethical questions posed by divergent interests Includes cases for ethical analysis of common medical practice Proposes a framework for ethical decision making in the clinical setting Provides critical analysis of Reflective Equilibrium and ethical induction from the perspective of logic and statistics De Gruyter Handbook of Citizens' Assemblies Min Reuchamps,Julien Vrydagh,Yanina Welp,2023-05-31 Citizens Assemblies CAs are flourishing around the world Quite often composed of randomly selected citizens CAs arguably come as a possible answer to contemporary democratic challenges Democracies worldwide are indeed confronted with a series of disruptive phenomena such as a widespread perception of distrust and growing polarization as well as low performance Many actors seek to reinvigorate democracy with citizen participation and deliberation CAs are expected to have the potential to meet this twofold objective But despite deliberative and inclusive qualities of CAs many questions remain open The increasing popularity of CAs call for a holistic reflection and evaluation on their origins current uses and future directions The De Gruyter Handbook of Citizens Assemblies showcases the state of the art around the study of CAs and opens novel perspectives informed by multidisciplinary research and renewed thinking about deliberative participatory processes It discusses the latest theoretical empirical and methodological scientific developments on CAs and offers a unique resource for scholars decision makers practitioners and curious citizens to better understand the qualities purposes promises but also pitfalls of CAs *Liberalism: Old and New: Volume 24, Part 1* Ellen Frankel Paul,Fred D. Miller,Jeffrey Paul,2007-02-12 In this collection thirteen prominent philosophers and political scientists address the nature of liberalism its origins and its meaning and proper interpretation Some essays examine the writings of liberalism s earliest defenders like John Locke and Adam Smith or the influence of classical liberalism on the American founders Some focus on the Progressive movement and the rise of the administrative state while others defend particular conceptions of liberalism or examine liberal theories of justice including those of John Rawls and Robert Nozick Several essays discuss the U S Constitution seeking to determine whether it is best viewed as empowering the federal government to achieve certain ends or as strictly limiting its power to ensure the broadest freedom for individuals to pursue their own ends Other essays address the limits of economic freedom or focus on the nature and extent of property rights and the government s power of eminent domain Consensus Planning: The Relevance of Communicative Planning Theory in Duth Infrastructure Development Johan Woltjer,2017-11-22 This title was published in

2000 This text offers a standpoint on communicative participatory planning called consensus planning The discussion takes place in the Netherlands where consensus based decision making is part of the national heritage The book explores recent Dutch infrastructure development experiences and concludes that communicative planning theory does not offer uniform relevance for the challenges that planning practitioners face Building on these experiences it proposes the concept of consensus planning as valuable in a complementary normalized and contingent way Consensus planning in other words has diverse practical appearances and sometimes may not exist or be desirable **A Theory Of Citizenship** Herman R. Van Gunsteren, 2018-10-08 Does vital citizenship require moral consensus Or is it the ability to organize their differences that allows people to live together as citizens in a republic Whereas liberal republican and communitarian theories of citizenship analyzed the conditions of citizenship the central message of this book is that the practical exercise of citizenship under conditions that are far from ideal is the main source of its vitality Instead of arguing for more participation it focuses on the citizenship of those who for whatever reason are already active in the public sphere Herman van Gunsteren develops a theory of citizenship well suited to the era of political reform that was inaugurated by the revolutions of 1989 Learning to Teach Citizenship in the Secondary School Liam Gearon, 2014-11-26 Praise for previous editions A comprehensive and illuminating resource on both citizenship and citizenship education David Hicks Times Educational Supplement What is the role of citizenship How can it be taught effectively Learning to Teach Citizenship in the Secondary School is an essential resource for students training to teach citizenship in the secondary school as well as teachers of citizenship looking for fresh ideas and guidance Written by leading experts in the field the book is underpinned by the latest research and theory and explores a variety of inspirational approaches to teaching and learning in a subject which provides a critical underpinning to the whole school curriculum This new third edition has been comprehensively updated and restructured to emphasise the role of citizenship across the curriculum exploring a wider range of subjects including geography modern foreign languages mathematics and science Key topics include historical origins and contemporary contexts developing subject knowledge and skills of enquiry effective lesson plans schemes of work and assessment citizenship beyond the classroom community based work and learning outdoors citizenship across the curriculum English drama and media history geography and religious education modern foreign languages mathematics and science and RE research in citizenship Including key objectives and chapter summaries together with carefully developed tasks to support your own professional development Learning to Teach Citizenship in the Secondary School is designed to develop theoretically informed good practice in citizenship education It is a source of support guidance and creative ideas for all training citizenship teachers and those teaching the subject as non specialists and offers specialists new insight into this crucial subject A Comparative Study of the Indian Constitution: pt. 1.
