Confronting Animal Abuse Confronting Animal Abuse:

Confronting Animal Abuse Piers Beirne, 2009-07-16 *Confronting Animal Abuse* presents a powerful examination of the human animal relationship and the laws designed to protect it Piers Beirne a leading scholar in the growing field of green criminology explores the heated topic of animal abuse in agriculture science and sport as well as what is known if anything about the potential for animal assault to lead to inter human violence He convincingly shows how from its roots in the Irish plow fields of 1635 through today animal rights legislation has been primarily shaped by human interest and why we must reconsider the terms of human animal relationships Beirne argues that if violations of animals rights are to be taken seriously then scholars and activists should examine why some harms to animals are defined as criminal others as abusive but not criminal and still others as neither criminal nor abusive *Confronting Animal Abuse* points to the need for a more inclusive concept of harms to animals without which the meaning of animal abuse will be overwhelmingly confined to those harms that are regarded as socially unacceptable one on one cases of animal cruelty Certainly those cases demand attention But so too do those other and far more numerous institutionalized harms to animals where abuse is routine invisible ubiquitous and often defined as socially acceptable In this pioneering pro animal book Beirne identifies flaws in our traditional understanding of human animal relationships and proposes a compelling new approach

Confronting Animal Exploitation Kim Socha, Sarah Jane Blum, 2013-02-06 As animal exploitation increases animal liberation issues are of growing concern as seen through the rise of veganism academic disciplines devoted to animal issues and mainstream critiques of factory farms Yet as the dialogues debates and books continue to grow the voices of street level activists not academics journalists or vegan chefs are rarely heard This volume broadens animal liberation dialogues by offering the arguments challenges inspiration and narratives of grassroots activists The essays show what animal advocacy looks like from a collective of individuals living in and around Minnesota s Twin Cities the essayists however write of issues both personal and political that resound on a global scale This collection provides a platform for rank and file activists to explain why and how they dedicate their time and what is being done for animals on a local level that can translate to global efforts to end animal exploitation

One Rights: Human and Animal Rights in the Anthropocene Saskia Stucki, 2023-01-01 This is an open access book Animals are the traditional blind spot in human rights theory This book brings together the seemingly disparate discourses of human and animal rights and looks at emerging animal rights as new human rights It approaches the question whether animals can and should have human rights through a comprehensive review of contemporary human rights philosophy discussing both naturalistic and political justifications of human and animal rights On philosophical as well as practical grounds this book argues that there are compelling conceptual principled and prudential reasons for modernizing the human rights paradigm and integrating animals into its protective mandate Moreover this book proposes the novel One Rights approach as a new post human rights paradigm for the Anthropocene One Rights advances a holistic understanding of the

indivisibility and interdependence of human and animal rights This book explores how the systematic subjugation exploitation and extermination of animals simultaneously contributes to some of the gravest social and environmental threats to human rights such as animalistic dehumanization and climate change This book submits that in light of their socio political and ecological interconnectedness human and animal rights are best protected in concert The themes of this book are part of a larger conversation about postanthropocentric legal paradigms emerging in the Anthropocene For human rights to survive in this era of anthropogenic crises we need to abandon the toxic ideology of human exceptionalism and embrace a more inclusive version of post human rights that tends to the nonhuman This book intends to show that a holistic One Rights approach promises to achieve better rights protective outcomes for humans animals and their shared planetary home

Animal Studies Matthew R. Calarco, 2020-09-29 Prefaced with a brief introduction to the field of animal studies the text explores the key influential terms topics and debates which have had a major impact on the field and that students are most likely to encounter in their animal studies classes Animal Studies provides a guide to key concepts in the burgeoning interdisciplinary field of animal studies laid out in A Z format While Human Animal Studies and Critical Animal Studies are the main frameworks that inform the bulk of the writings in animal studies and the key concepts discussed in the volume other approaches such as anthrozoology and cognitive ethology are also explored The entries in the volume attend to the differences in ongoing debates among scholars and activists showing that what is commonly called animal studies is far from a unified body of work A full bibliography of sources is included at the end of the book along with an extensive index The book will be a valuable guide to undergraduate and postgraduate students in geography philosophy sociology anthropology women s studies and other related disciplines Seasoned researchers will find the book helpful when researching topics outside of their specialization Outside of academia it will be of interest to activists as well as professional organizations

Routledge International Handbook of Green Criminology Nigel South, Avi Brisman, 2020-04-14 The Routledge International Handbook of Green Criminology was the first comprehensive and international anthology dedicated to green criminology It presented green criminology to an international audience described the state of the field offered a description of a range of environmental issues of regional and global importance and argued for continued criminological attention to environmental crimes and harms setting an agenda for further study In the six years since its publication the field has continued to grow and thrive This revised and expanded second edition of the Handbook reflects new methodological orientations new locations of study such as Asia Canada and South America and new responses to environmental harms While a number of the original chapters have been revised the second edition offers a range of fresh chapters covering new and emerging areas of study such as conservation criminology eco feminism environmental victimology fracking migration and eco rights and e waste This handbook continues to define and capture the field of green criminology and is essential reading for students and researchers engaged in green crime and environmental harm

Animal Welfare and

International Environmental Law Werner Scholtz, 2019 At a time when the planet's wildlife faces countless dangers international environmental law continues to overlook its evolving welfare interests This thought provoking book provides a crucial exploration of how international environmental law must adapt to take account of the growing recognition of the intrinsic value of wildlife

The Commodification of Farm Animals Sophie Riley, 2022-02-15 This book examines how the developments in veterinary science philosophy economics and law converged during the nineteenth and early twentieth centuries to entrench farm animals along a commodification pathway It covers two neglected areas of study the importance of international veterinary conferences to domestic regimes and the influence of early global treaties that dealt with animal health on domestic quarantine measures The author concludes by arguing that society needs to reconsider its understanding and the place of the welfare paradigm in animal production systems As it presently stands this paradigm can be used to justify almost any self serving reason to abrogate ethical principles The topic of this book will appeal to a wide readership not only scholars students and educators but also people involved in animal production interested parties and experts in the animal welfare and animal rights sector as well as policy makers and regulators who will find this work informative and thought provoking

Criminology Piers Beirne, James W. Messerschmidt, 2014 This is a comprehensive introduction to the study of crime and criminological theory for criminology courses The authors take a critical sociological approach which emphasizes the relationship between gender class race age and crime Definitions of crime and the measurement of crime are subjected to a critical analysis that focusses on the social construction of crime and crime rates The book addresses historical feminist and comparative perspectives highlighting the major types of crime and victimization patterns It is of most interest to those who teach criminology out of a sociology department those who are sociologists teaching the course out of CJ or any instructor for whom a critical approach is key
