Andrew Soltis, 2022-02-24. A crucial decision spared chess Grandmaster David Bronstein almost certain death at the hands of the Nazis; one fateful move cost him the world championship. Russian champion Mark Taimanov was touted as a hero of the Soviet state until his loss to Bobby Fischer, all but ruined his life. Yefim Geller's dream of becoming world champion was crushed by a bad move against Fischer, his hated rival. Yuri Averbakh had no explanation how he became the world's oldest grandmaster other than the quixotic nature of fate. Vasily Smyslov, the only one of the five to become world champion, would reign for just one year; fortune, he said, gave him pneumonia at the worst possible time. This book explores how fate played a capricious role in the lives of five of the greatest players in chess history.

Black is Back! Andras Adorjan, 2016-10-13. Many chess players act intimidated and overly cautious when they have the Black pieces. They are so preoccupied with White's advantage of the first move that their predominant urge is to defend against possible threats and to safeguard their position. With his iconoclastic *Black is OK* books, Andras Adorjan has consistently been fighting this negative mindset. In *Black is Back*, the Hungarian grandmaster continues his crusade. He shows that White's advantage is far from obvious and that winning with Black starts with having the right attitude. Adorjan presents a wealth of Black wins from his own long career and from great players he has worked with. He shows that with creative play, Black can often turn the tables. Surprising statistics and instructive examples from modern-day chess will encourage even the most defensively minded players to look for hidden opportunities. This book will convince both club players and professionals that there is no reason to be afraid when playing Black. Instead, they will start looking for creative solutions and beat White more often.
