Contemporary Adulthood Munson, 1994-05-01 *Arrested Adulthood* James E. Cote, 2000-07-01 An examination into the social influences that have prolonged youth in today's adults Why are today's adults more like adolescents in their dress and personal tastes than ever before Why do so many adults seem to drift and avoid responsibilities such as work and family As the traditional family breaks down and marriage and child rearing are delayed what makes a person an adult Many people in the industrial West are simply not growing up in the traditional sense Instead they pursue personal individual fulfillment and emerge from a vague and prolonged youth into a vague and insecure adulthood The transition to adulthood is becoming more hazardous and the destination is becoming more difficult to reach if it is reached at all *Arrested Adulthood* examines the variety of young people's responses to this new situation James E. C. t shows us adults who allow the profit driven industries of mass culture to provide the structure that is missing as their lives become more individualistic and atomized He also shows adults who resist anomie and build their world around their sense of personal connectedness to others Finally C. t provides a vision of a truly progressive society in which all members can develop their potentials apart from the influence of the market In so doing he gives us a clearer vision of what it means to be an adult and makes sense of the longest but least understood period of the life course *Adulthood in Children's Literature* Vanessa Joosen, 2018-09-06 While most scholars who study children's books are pre occupied with the child characters and adult mediators Vanessa Joosen re positions the lens to focus on the under explored construction of adulthood in children's literature *Adulthood in Children's Literature* demonstrates how books for young readers evoke adulthood as a stage in life enacted by adult characters and in relationship with the construction of childhood Employing age studies as a framework for analysis this book covers a range of English and Dutch children's books published from 1970 to the present Calling upon critical voices like Elisabeth Young Bruehl Margaret Morganroth Gullette Peter Hollindale Maria Nikolajeva and Lorraine Green and the works of such authors as Babette Cole Philip Pullman Ted van Lieshout Jacqueline Wilson Salman Rushdie and Guus Kuijer Joosen offers a fresh perspective on children's literature by focusing not on the child but the adult **Transitions from School to Work** Ingrid Schoon, Rainer K. Silbereisen, 2009-08-24 This volume made an important contribution to the growing literature on the transition from school to work It provides a different perspective on the global changes that have transformed school to work transitions since the

1970s offers an integrative conceptual framework for analysis and promotes a comparative cross national understanding of school to work transitions in a changing social context The articles assembled in this volume compare and assess variations in school to work transitions across Europe and North America providing empirical evidence on how young people negotiate the different options and opportunities available and assessing the costs and returns associated with different transition strategies Unlike many other volumes on this subject which are pitched at either the macro or micro level this volume attempts to integrate both perspectives capturing the complexity of this critical life course transition Furthermore the authors address policies aimed at improving the capacity of individuals to make effective transitions and at enabling societies to better coordinate educational and occupational institutions

The SAGE Handbook of International Social Work Karen H Lyons, Terry Hokenstad, Manohar Pawar, Nathalie Huegler, Nigel Hall, 2012-05-18 Social work is a profession that is increasingly involved with issues which have a global dimension This Handbook tackles the global local aspect of social work in its various forms and interrogates the key concerns that societies are facing through an international lens The contributors show that with an appreciation of commonalities and differences local practices and appropriate forms of international activity can be better developed Areas covered include Analysis of International social work Globalisation and indigenisation Social justice and human rights Poverty and livelihoods Ecological issues Migration Education theory research and practice Social work in different settings Religion and spirituality Responses to disasters and conflicts Life course perspectives Regional perspectives Future directions With a truly international range of contributions the Handbook incorporates perspectives from Asia Africa Europe Australasia the Middle East and the Americas It will be an invaluable resource for undergraduates postgraduates researchers and academics working in the fields of social work social welfare human services and community development worldwide as well as service providers and policy makers in the international arena

The Palgrave Handbook of Literature and Aging Valerie Barnes Lipscomb, Aagje Swinnen, 2024-04-16 This handbook offers a comprehensive survey of the growing field of literary age studies and points to new directions in scholarly research Divided into four sections the volume reflects the current conversations in the field intersections and intersectionalities traveling concepts methodological innovations and archival inquiries It encompasses the spectrum of critical approaches that literary age studies scholars employ from environmental studies and postcolonial theory to critical race theory and queer studies While close reading continues to be a mainstay of literary criticism the handbook highlights alternative tools and routes in both data elicitation and analysis The final part of the book shows the burgeoning interest in the field from literary scholars across historical periods extending the scope of literary age studies beyond contemporary texts This is an essential reference work for advanced students and scholars of literary studies gerontology age aging studies interdisciplinary studies and cultural studies

Youth Development in Identity Societies James E. Cote, 2018-10-31 This book explores the causes and consequences of the contradictions in young people's lives stemming from the affluence purpose paradox a lack of purpose in

life among many of those living in the most affluent societies in human history This paradox is endemic to identity societies where people experience a choice contingent life course and is examined using an interdisciplinary approach largely with an integration of developmental psychology and sociology but also using historical anthropological economic and political perspectives The transition to adulthood is now commonly a prolonged process with young people facing a number of psychological challenges and sociological obstacles in their identity formation Challenges include difficulties in making prudent choices about goals Obstacles involve cross pressures in the wider society as well as in educational institutions Consequently many youth experience their education as alienating and stressful rather than as an opportunity for personal development Those without a sense of purpose have more difficulties with their identity formation that can produce symptoms of anxiety and depression The current student mental health crisis is examined in this context An additional challenge is an ambiguously defined adulthood Young people who are confused about appropriate adult roles often value hedonistic activities rooted in narcissism and materialism rather than in more fulfilling long term goals Conversely those who are agentic in their personal development can thrive in adulthood especially when they combine agency with generativity This book ends with a series of recommendations for researchers and policy makers to help youth cope with the affluence purpose paradox

Destined for Greatness Michael Ramirez, 2018-04-16 Pursuing the dream of a musical vocation particularly in rock music is typically regarded as an adolescent pipedream Music is marked as an appropriate leisure activity but one that should be discarded upon entering adulthood How then do many men and women aspire to forge careers in music upon entering adulthood In *Destined for Greatness* sociologist Michael Ramirez examines the lives of forty eight independent rock musicians who seek out such non normative choices in a college town renowned for its music scene He explores the rich life course trajectories of women and men to explore the extent to which pathways are structured to allow some but not all individuals to fashion careers in music worlds Ramirez suggests a more nuanced understanding of factors that enable the pursuit of musical livelihoods well into adulthood
