Contested Democracy Freedom Race And Power In American History

Anne Twitty

Contested Democracy Freedom Race And Power In American History:

Contested Democracy Manisha Sinha, Penny Von Eschen, 2007-09-18 With essays on U S history ranging from the American Revolution to the dawn of the twenty first century *Contested Democracy* illuminates struggles waged over freedom and citizenship throughout the American past Guided by a commitment to democratic citizenship and responsible scholarship the contributors to this volume insist that rigorous engagement with history is essential to a vital democracy particularly amid the current erosion of human rights and civil liberties within the United States and abroad Emphasizing the contradictory ways in which freedom has developed within the United States and in the exercise of American power abroad these essays probe challenges to American democracy through conflicts shaped by race slavery gender citizenship political economy immigration law empire and the idea of the nation state In this volume writers demonstrate how opposition to the expansion of democracy has shaped the American tradition as much as movements for social and political change By foregrounding those who have been marginalized in U S society as well as the powerful these historians and scholars argue for an alternative vision of American freedom that confronts the limitations failings and contradictions of U S power Their work provides crucial insight into the role of the United States in this latest age of American empire and the importance of different and oppositional visions of American democracy and freedom At a time of intense disillusionment with U S politics and of increasing awareness of the costs of empire these contributors argue that responsible historical scholarship can challenge the blatant manipulation of discourses on freedom They call for careful and conscientious scholarship not only to illuminate contemporary problems but also to act as a bulwark against mythmaking in the service of cynical political ends

and of increasing awareness of the costs of empire these contributors argue that responsible historical scholarship can challenge the blatant manipulation of discourses on freedom They call for careful and conscientious scholarship not only to illuminate contemporary problems but also to act as a bulwark against mythmaking in the service of cynical political ends

Democracy, Participation and Contestation Emmanuelle Avril, Johann N Neem, 2014-08-07 The establishment of democracy on both sides of the Atlantic has not been a smooth evolution towards an idealized presumed endpoint Far from it democratization has been marked by setbacks and victories a process often referred to as contested democracy In view of recent mobilizations such as the Arab Spring and the Occupy movement in which new technologies have played a key role there is a need for a renewed analysis of the long term evolution of US and UK political systems Using new areas of research this book argues that the ideals and the practices of Anglo American democracy can be best understood by studying diverse forms of participation which go beyond classical expressions of contestation and dissent such as voting The authors analyze political parties social movements communications and social media governance cultural diversity identity politics public private actors and social cohesion to illustrate how the structure and context of popular participation play a significant role in whether and when citizens efforts have any meaningful impact on those who exercise political power In doing so the authors take crucial steps towards understanding how a vigorous public sphere and popular sovereignty can be made to work in today's global environment This book will be of interest to students and scholars of political science British and US history democracy political participation governance social movements and politics

Before Dred Scott Anne Twitty, 2016-10-31 Before Dred Scott draws on the freedom suits filed in the St Louis Circuit Court to construct a groundbreaking history of slavery and legal culture within the American Confluence a vast region where the Ohio Mississippi and Missouri Rivers converge Formally divided between slave and free territories and states the American Confluence was nevertheless a site where the borders between slavery and freedom like the borders within the region itself were fluid Such ambiguity produced a radical indeterminacy of status which in turn gave rise to a distinctive legal culture made manifest by the prosecution of hundreds of freedom suits including the case that ultimately culminated in the landmark United States Supreme Court decision in Dred Scott vs Sandford Challenging dominant trends in legal history Before Dred Scott argues that this distinctive legal culture above all was defined by ordinary people's remarkable understanding of and appreciation for formal law

America in the World Frank Costigliola, Michael J. Hogan, 2013-12-23 This volume includes historiographical surveys of American foreign relations since 1941 by some of the country's leading historians Some of the essays offer sweeping overviews of the major trends in the field of foreign international relations history Others survey the literature on US relations with particular regions of the world or on the foreign policies of presidential administrations The result is a comprehensive assessment of the historical literature on US foreign policy that highlights recent developments in the field

Trump's America Kennedy Liam Kennedy, 2020-09-09 Explores the cultural and political significance of the election of

President Trump Donald J Trump's presidency has delivered a seismic shock to the American political system its public sphere and to our political culture worldwide Written by leading scholars across a range of disciplines as well as professionals in the field of political journalism this collection of essays offers a deeper understanding of Trump and the impact that his rise to power has had both domestically and worldwide The first section provides varied perspectives on the realignments of political culture in the United States that signify a paradigm shift a radical disruption of fundamental beliefs and values about the political process and national identity The second section of the book focuses on US foreign policy and diplomacy taking stock of how the Trump presidency has disturbed the international system and US primacy within it The third section of the book addresses the dynamics and consequences of what has come to be called the post-truth politics where conviction surpasses facts and the norms of political communication have been profoundly disrupted Liam Kennedy is Professor of American Studies and Director of the Clinton Institute for American Studies at University College Dublin

Exploring the Decolonial Imaginary P. Schechter, 2012-01-02 This study explores two categories empire and citizenship that historians usually study separately It does so with a unifying focus on racialization in the lives of outstanding women whose careers crossed national borders between 1880 and 1965 It puts an individual intellectual and female face on transnational phenomena

Casseroles, Can Openers, and Jell-O Elizabeth Aldrich, 2023-05-01 Casseroles Can Openers and Jell-O provides insight on how American food culture developed during the early years of the Cold War Highlighting gender roles the promotion of democracy and capitalism and the impact of mass market advertising the book draws on cookbooks popular magazines television advertisements government publications and industry pamphlets to paint a vivid picture of what Americans ate and how food was enlisted as a symbol of America's postwar dominance Featuring eighty recipes the book shows how the food industry promoted new processed foods to an increasingly industrialized nation For anyone wanting to better understand how America's food culture developed during the mid twentieth century and for those who were raised on TV dinners and Campbell's soup the book offers an engaging and evocative look at the story of American cuisine during the early years of the Cold War

Smashing the Liquor Machine Mark Lawrence Schrad, 2021-06-22 This is a unique retelling of the history of temperance and prohibition Rather than focusing on white rural conservative American bible thumpers Mark Lawrence Schrad contends that the temperance movement was a progressive international and revolutionary movement of oppressed peoples fighting the liquor traffic through which states and rich capitalists combined to get the lower classes addicted to drink for profit Schrad shows that the temperance movement was in fact a global pro justice movement that had an impact in nearly every major country in the world both developing and developed

To Live an Antislavery Life Erica Ball, 2012-11-01 In this study of antebellum African American print culture in transnational perspective Erica L Ball explores the relationship between antislavery discourse and the emergence of the northern black middle class Through innovative readings of slave narratives sermons fiction convention proceedings and the advice literature printed in forums like Freedom

s Journal the North Star and the Anglo African Magazine Ball demonstrates that black figures such as Susan Paul Frederick Douglass and Martin Delany consistently urged readers to internalize their political principles and to interpret all their personal ambitions private familial roles and domestic responsibilities in light of the freedom struggle Ultimately they were admonished to embody the abolitionist agenda by living what the fugitive Samuel Ringgold Ward called an antislavery life Far more than calls for northern free blacks to engage in what scholars call the politics of respectability African American writers characterized true antislavery living as an oppositional stance rife with radical possibilities a deeply personal politics that required free blacks to transform themselves into model husbands and wives mothers and fathers self made men and transnational freedom fighters in the mold of revolutionary figures from Haiti to Hungary In the process Ball argues antebellum black writers crafted a set of ideals simultaneously respectable and subversive for their elite and aspiring African American readers to embrace in the decades before the Civil War Published in association with the Library Company of Philadelphia s Program in African American History A Sarah Mills Hodge Fund Publication

When people should go to the ebook stores, search establishment by shop, shelf by shelf, it is in reality problematic. This is why we provide the book compilations in this website.
