

Contoh pidato bahasa Inggris tentang pendidikan di hari besar pendidikan

Assalamualaikum wr wb.

I thank God for giving the health and time to share a knowledge on this historic day, the day of national education.

Ladies and Gentlemen,

Indonesia is a big country, inhabited by hundreds of millions people includes islands spread widely. We have been independent since 1945, but I think Indonesia is not yet independent in terms of education. Although we have changed curricula almost every year, but it proved that the Indonesian education has not been able to compete with the developed countries. We tend to fall behind and have not been able to print a great human resources class as developed countries.

Ladies and Gentlemen,

I tried to draw a line to the back, and I get the irony which is really disappointing. In this very rich country, there are so many students drop out of school, do not have a uniform, and swim to go to school because of the broken bridge. It is an irony in the midst of our State assets.

Statistics of school buildings damaged and have not been improved are also too much. It is happening in the provinces that are far away from the center of government and gives continuing negative effect on the education system in the province itself.

Of course, a child who does not get an education will have difficulties in achieving a better standard of living in his future. You've seen that a lot of ignorance and poverty arise because so many crimes arising from poverty.

Ladies and Gentlemen,
