Contours Of Ableism The Production Of Disability And Abledness:

Contours of Ableism F. Campbell, 2009-09-16 Challenging notions of what constitutes normal and pathological bodies this ambitious agenda setting study theoretically reinvigorates disability studies by reconceptualising it as studies of ableism focusing on the practices and formations of able bodiedness to uncover what it means to be able rather than disabled

Contours of Ableism Fiona Kumari Campbell, 2009 Examining what the study of disability tells us about the production operation and maintenance of ableism this ambitious study explores the ways abled ness is understood providing new directions in research on aberrancy and its focus on a normative ethos Reconfiguring and challenging the disability studies perspective this book extends its remit beyond the traditional concern with social inequalities exploring the territories of embodiment subjectivity transhumanism technologies and jurisprudence The book uncovers sites of the production of abelism and conversely sites of resistance to abelist norms and practices to ask key questions such as what happens when disability and desire are placed in close proximity how does law reinforce negative associations of impairment how do the media present the promises of new disability technologies and medical interventions **Project(ing) Human:**

Representations of Disability in Science Fiction Courtney Stanton, 2023-05-30 This edited volume examines representations of disability within popular science fiction using examples from television film literature and gaming to explore how the genre of science fiction shapes cultural understanding of disability experience Science fiction texts typically grapple with concepts such as transhumanism embodiment and autonomy more directly than do those of other genres In doing so they raise significant questions about the experience of disability More broadly they often convey the place of disability in not only the future but also the world of today Through critical research the chapters within this interdisciplinary collection explore what science fiction texts convey about the value of disability whether it be through disabled characters biotechnologies or more broadly conceptions of an idealized future Chapters are grouped thematically and include discussions of the intersections of disability with other identity groups the interplay of disability and market capitalist value and how disability shapes current and future definitions of human ness agency and autonomy This full volume builds on current research regarding the relationship of disability studies to the science fiction genre by exploring new themes and contemporary media to aid as an instructional tool for scholars in fields of disability studies science fiction literature and media studies

The Routledge Companion to Disability and Media Katie Ellis, Gerard Goggin, Beth Haller, Rosemary Curtis, 2019-10-31 An authoritative and indispensable guide to disability and media this thoughtfully curated collection features varied and provocative contributions from distinguished scholars globally alongside next generation research leaders Disability and media has emerged as a dynamic and exciting area of contemporary culture and social life Media especially digital technology play a vital role in disability transformations with widespread implications for global societies and how we understand communications This book addresses this development from representation and audience through

technologies innovations and challenges of the field Through the varied and global perspectives of leading researchers writers and practitioners including many authors with lived experience of disability it covers a wide range of traditional emergent and future media forms and formats International in scope and orientation The Routledge Companion to Disability and Media offers students and scholars alike a comprehensive survey of the intersections between disability studies and media studies This book is available as an accessible eBook For more information please visit <https://taylorandfrancis.com> about corporate responsibility accessibility at taylor francis

Disability, Media, and Representations Jacob Johanssen, Diana Garrisi, 2020-02-27 Bringing together scholars from around the world to research the intersection between media and disability this edited collection aims to offer an interdisciplinary exploration and critique of print broadcast and online representations of physical and mental impairments Drawing on a wide range of case studies addressing how people can be othered in contemporary media the chapters focus on analyses of hateful discourses about disability on Reddit news coverage of disability and education media access of individuals with disabilities the logic of memes and brain tumour on Twitter celebrity and Down Syndrome on Instagram disability in TV drama the metaphor of disability for the nation as well as an autoethnography of treatment of breast cancer Providing a much needed global perspective Disability Media and Representations examines the relationship between self representation and representations in either reinforcing or debunking myths around disability and ways in which academic discourse can be differently articulated to study the relationship between media and disability This book will be of interest to students and researchers of disability studies and media studies as well as activists and readers engaged in debates on diversity inclusivity and the media

Disability and the Sociological Imagination Allison C. Carey, 2022-05-16 Disability and the Sociological Imagination provides an expertly developed and accessible overview of the relatively new and growing area of sociology of disability Written by one of the field's leading researchers it discusses the major theorists research methods and bodies of knowledge that represents sociology's key contributions to our understanding of disability Unlike other available texts it examines the ways in which major social structures contribute to the production and reproduction of disability and examines how race class gender and sexual orientation shape the disability experience

Youth and Disability Jenny Slater, 2016-02-11 In this ground breaking book Jenny Slater uses the lens of the reasonable to explore how normative understandings of youth disability and the intersecting identities of gender and sexuality impact upon the lives of young disabled people Although youth and disability have separately been thought within socio cultural frameworks rarely have sociological studies of youth and disability been brought together By taking an interdisciplinary critical disability studies approach to explore the socio cultural concepts of youth and disability alongside one another Slater convincingly demonstrates that youth and disability have been conceptualised within medical psychological frameworks for too long With chapters focusing on access and youth culture independence autonomy and disabled people's movements and the body gender and sexuality this volume's intersectional

and transdisciplinary engagement with social theory offers a significant contribution to existing theoretical and empirical literature and knowledges around disability and youth. Indeed, through highlighting the ableism of adulthood and the falsity of conceptualising youth as a time of becoming independent adult, the need to shift approaches to research around disabled youth is one of the main themes of the book. This book therefore is a provocation to rethink what is implicit about youth and disability. Moreover, through such an endeavour, this book sits as a challenge to Mr Reasonable.

Activating Arts to Understand Disability in Africa Charlotte Baker, Elvis Imafidon, Kobus Moolman, Emelda Ngufor Samba, 2025-08-29. While Disability Studies has become more diversified in recent years, contemporary debates still favour the Northern Hemisphere, ignoring the lived experience of disabled people in much of the global South. Few theoretical studies pay sufficient attention to the range of beliefs and attitudes towards disability in specific African contexts, despite the fact that beliefs and explanations for disability permeate daily existence in sub-Saharan African places and can have real consequences for persons with disabilities, leading to stigmatisation, marginalisation and even violence. This volume is a timely intervention that seeks to address some of these imbalances and biases. Through frank life writing, evocative poetry and critical reflections on African arts and literatures, the contributors highlight the urgent need for more culturally informed understandings of disability as a means by which to challenge existing explanations. They examine the powerful role of different creative forms, tools and methodologies in enhancing understandings of disability in African contexts. Demonstrating the power of cultural representation in building sensitivity to the range of issues related to disability, this book is of key relevance not just to scholars and students of disability studies, African studies and sociology, but to all who seek to advocate for social change. The volume is a key outcome of the Disability and Inclusion Africa Network. It is edited by Charlotte Baker, Lancaster University, UK; Elvis Imafidon, SOAS University of London, UK; Kobus Moolman, University of the Western Cape, South Africa; and Emelda Ngufor Samba, University of Yaoundé 1, Cameroon.

Physical Disability in British Romantic Literature Essaka Joshua, 2020-11-12. This book provides new period appropriate concepts for understanding Romantic era physical disability through function and aesthetics.

Intersectional Colonialities Robel Afeworki Abay, Karen Soldatić, 2024-05-28. This book provides a rich synthesis of empirical research and theoretical engagements with questions of disability across different practices of colonialism, as historically defined post-de/anti-settler colonialism. It synthesises critiques and expands the boundaries of existing disability research, which has been undertaken within different colonial contexts, through the rich examination of recent empirical work mapping across disability and its intersectional colonialities. Filling an existing gap within the international literature through embedding the importance of grounding these within scholarly debates of colonialism, it empirically demonstrates the significance of disability for the broader scholarly fields of postcolonial, decolonial and intersectional theories. It will be of interest to all scholars and students of disability studies, sociology, critical studies, sociology of race and ethnic relations, intersectionality, postcolonial and decolonial studies, and human geography.
