Euclides da Cunha Luiz Costa Lima, 2000 **Traces of the Unseen** Carolina Sá Carvalho, 2023-02-15 Winner of the 2024 Roberto Reis Book Award Winner of the LASA Environment Section Best Book of 2023 Winner of the LASA Amazonian Studies Section Best Book of 2024 Co-Winner of the LASA Book Award for the Visual Culture Studies 2024 A richly illustrated examination of photography as a technology for documenting, creating and understanding the processes of modernization in turn of the century Brazil and the Amazon. Photography at the turn of the twentieth century was not only a product of modernity but also an increasingly available medium to chronicle the processes of modernization. *Traces of the Unseen: Photography, Violence and Modernization in Early Twentieth Century Latin America* situates photography's role in documenting the destruction wrought by infrastructure development and extractive capitalist expansion in the Amazon and outside the Brazilian metropole. Combining formal analysis of individual photographs with their inclusion in larger multimedia assemblages, Carolina Sá Carvalho explores how this visual evidence of violence was framed, captioned, cropped and circulated. As she explains, this photographic creation and circulation generated a pedagogy of the gaze with which increasingly connected urban audiences were taught what and how to see; viewers learned to interpret the traces of violence captured in these images within the larger context of modernization. *Traces of the Unseen* draws on works by Flávio de Barros, Euclides da Cunha, Roger Casement, Claude Lévi-Strauss and Mário de Andrade to situate an unruly photographic body at the center of modernity in all its disputed meanings. Moreover, Sá Carvalho locates historically specific practices of seeing within the geopolitical peripheries of capitalism. What emerges is a consideration of photography as a technology through which modern aspirations, moral inclinations, imagined futures and lost pasts were represented, critiqued and mourned. **Catalog of the Latin American Collection** University of Texas at Austin. Library. Latin American Collection, 1969 *Intimate Frontiers* Felipe Martínez-Pinzón, Javier Uriarte, 2019-05-24 *Intimate Frontiers: A Literary Geography of the Amazon* analyzes the ways in which the Amazon has been represented in twentieth-century cultural production. With contributions by scholars working in Latin America, the US and Europe, *Intimate Frontiers* reads against the grain commonly held notions about the region: its gigantism, its richness, its exceptionality among others, choosing to approach these rather from quotidian, everyday experiences of a more intimate nature. The multinational, pluriethnic corpus of texts critically examined here explores a wide range of cultural artifacts including travelogues, diaries and novels about the rubber boom, genocide as well as indigenous oral histories, documentary films and photography about the region. The different voices gathered in this book show that the richness of the Amazon lays not in its natural resources or opportunities for economic exploit but in the richness of its histories, stories in the form of songs, oral histories, images, material culture and texts. **Boletim Da Sociedade de Geographia Do Rio de Janeiro** Sociedade Brasileira de Geografia, 1924
