California Vieja Culture And Memory In A Modern American Place:

California Vieja Phoebe S. Kropp, 2023-11-15 The characteristic look of Southern California with its red tiled roofs stucco homes and Spanish street names suggests an enduring fascination with the region's Spanish Mexican past In this engaging study Phoebe S Kropp reveals that the origins of this aesthetic were not solely rooted in the Spanish colonial period but arose in the early twentieth century when Anglo residents recast the days of missions and ranchos as an idyllic golden age of pious padres placid Indians dashing caballeros and sultry señoritas Four richly detailed case studies uncover the efforts of Anglo boosters and examine the responses of Mexican and Indian people in the construction of places that gave shape to this cultural memory El Camino Real a tourist highway following the old route of missionaries San Diego's world's fair the Panama California Exposition the architecturally and racially restricted suburban hamlet Rancho Santa Fe and Olvera Street an ersatz Mexican marketplace in the heart of Los Angeles California Vieja is a compelling demonstration of how memory can be more than nostalgia In Southern California the Spanish past became a catalyst for the development of the region's built environment and public culture and a civic narrative that still serves to marginalize Mexican and Indian residents The characteristic look of Southern California with its red tiled roofs stucco homes and Spanish street names suggests an enduring fascination with the region's Spanish Mexican past In this engaging study Phoebe S Kropp reveals that the origins of t

Imperial Metropolis Jessica M. Kim, 2019-08-09 In this compelling narrative of capitalist development and revolutionary response Jessica M Kim reexamines the rise of Los Angeles from a small town to a global city against the backdrop of the U S Mexico borderlands Gilded Age economics and American empire It is a far reaching transnational history chronicling how Los Angeles boosters transformed the borderlands through urban and imperial capitalism at the end of the nineteenth century and how the Mexican Revolution redefined those same capitalist networks into the twentieth Kim draws on archives in the United States and Mexico to argue that financial networks emerging from Los Angeles drove economic transformations in the borderlands reshaped social relations across wide swaths of territory and deployed racial hierarchies to advance investment projects across the border However the Mexican Revolution with its implicit critique of imperialism disrupted the networks of investment and exploitation that had structured the borderlands for sixty years and reconfigured transnational systems of infrastructure and trade Kim provides the first history to connect Los Angeles's urban expansionism with more continental and global currents and what results is a rich account of real and imagined geographies of city race and empire

California and Hawai'i Bound Henry Knight Lozano, 2021-08 Henry Knight Lozano explores how U S boosters writers politicians and settlers promoted and imagined California and Hawai'i as connected places and how this relationship reveals the fraught constructions of an Americanized Pacific West from the 1840s to the 1950s

La Calle Lydia R. Otero, 2016-10-01 On March 1 1966 the voters of Tucson approved the Pueblo Center Redevelopment Project Arizona's first major urban renewal project which targeted the most densely populated eighty acres in the state For close to

one hundred years tucsonenses had created their own spatial reality in the historical predominantly Mexican American heart of the city an area most called la calle Here amid small retail and service shops restaurants and entertainment venues they openly lived and celebrated their culture To make way for the Pueblo Center s new buildings city officials proceeded to displace la calle s residents and to demolish their ethnically diverse neighborhoods which contends Lydia Otero challenged the spatial and cultural assumptions of postwar modernity suburbia and urban planning Otero examines conflicting claims to urban space place and history as advanced by two opposing historic preservationist groups the La Placita Committee and the Tucson Heritage Foundation She gives voice to those who lived in experienced or remembered this contested area and analyzes the historical narratives promoted by Anglo American elites in the service of tourism and cultural dominance La Calle explores the forces behind the mass displacement an unrelenting desire for order a local economy increasingly dependent on tourism and the pivotal power of federal housing policies To understand how urban renewal resulted in the spatial reconfiguration of downtown Tucson Otero draws on scholarship from a wide range of disciplines Chicana o ethnic and cultural studies urban history sociology and anthropology city planning and cultural and feminist geography

Boosting a New West John C. Putman, 2021-06-18 Inspired by Chicago s successful 1893 World Columbian Exposition the cities of Portland Seattle San Diego and San Francisco all held fairs between 1905 and 1915 From the start of the Lewis and Clark Exposition to the close of the Panama California Exposition a decade later millions of Americans visited exhibits watched live demonstrations and performances and wandered amusement zones Millions more thumbed through brochures or read news articles Fair publicity directors embraced the emerging science of consumer marketing Conceived to attract new citizens showcase communities and highlight farming and industrial opportunities the four expositions promotional campaigns and vendor and exhibit choices offer a unique opportunity to examine western leaders perceptions of their city and region as well as their future goals and how they both fed and tried to mitigate misconceptions of a wild woolly West They also expose biased attitudes toward Native Americans Mexican Americans Filipinos and others Boosting a New West explores the fairs cultural and social meaning by focusing on and comparing the promotions that surrounded them It details their origins and describes why each city chose to host conveying the expected economic social and cultural benefits It also shows how organizers articulated their significance to urban regional and national audiences and how they attempted to shape a new western identity

Pioneer Mother Monuments Cynthia Culver Prescott, 2019-04-04 For more than a century American communities erected monuments to western pioneers Although many of these statues receive little attention today the images they depict sturdy white men saintly mothers and wholesome pioneer families enshrine prevailing notions of American exceptionalism race relations and gender identity Pioneer Mother Monuments is the first book to delve into the long and complex history of remembering forgetting and rediscovering pioneer monuments In this book historian Cynthia Culver Prescott combines visual analysis with a close reading of primary source documents Examining some two hundred

monuments erected in the United States from the late nineteenth century to the present Prescott begins her survey by focusing on the earliest pioneer statues which celebrated the strong white men who settled and conquered the West By the 1930s she explains when gender roles began shifting new monuments came forth to honor the Pioneer Mother The angelic woman in a sunbonnet armed with a rifle or a Bible as she carried civilization forward an iconic figure resonated particularly with Mormon audiences While interest in these traditional monuments began to wane in the postwar period according to Prescott a new wave of pioneer monuments emerged in smaller communities during the late twentieth century Inspired by rural nostalgia these statues helped promote heritage tourism In recent years Americans have engaged in heated debates about Confederate Civil War monuments and their implicit racism Should these statues be removed or reinterpreted Far less attention however has been paid to pioneer monuments which Prescott argues also enshrine white cultural superiority as well as gender stereotypes Only a few western communities have reexamined these values and erected statues with more inclusive imagery Blending western history visual culture and memory studies Prescott s pathbreaking analysis is enhanced by a rich selection of color and black and white photographs depicting the statues along with detailed maps that chronologically chart the emergence of pioneer monuments

Shaping the Shoreline Connie Y. Chiang, 2009-11-17 The Monterey coast home to an acclaimed aquarium and the setting for John Steinbeck s classic novel Cannery Row was also the stage for a historical junction of industry and tourism Shaping the Shoreline looks at the ways in which Monterey has formed and been formed by the tension between labor and leisure Connie Y Chiang examines Monterey s development from a seaside resort into a working class fishing town and finally into a tourist attraction again Through the subjects of work recreation and environment the intersections of which are applicable to communities across the United States and abroad she documents the struggles and contests over this magnificent coastal region By tracing Monterey s shift from what was once the literal Cannery Row to an iconic hub that now houses an aquarium in which nature is replicated to attract tourists the interactions of people with nature continues to change Drawing on histories of immigration unionization and the impact of national and international events Chiang explores the reciprocal relationship between social and environmental change By integrating topics such as race ethnicity and class into environmental history Chiang illustrates the idea that work and play are not mutually exclusive endeavors

Laura R. Barraclough, 2011-01-01 In the first book length scholarly study of the San Fernando Valley home to one third of the population of Los Angeles Laura R Barraclough combines ambitious historical sweep with an on the ground investigation of contemporary life in this iconic western suburb She is particularly intrigued by the Valley s many rural elements such as dirt roads tack and feed stores horse keeping districts citrus groves and movie ranches Far from natural or undeveloped spaces these rural characteristics are she shows the result of deliberate urban planning decisions that have shaped the Valley over the course of more than a hundred years The Valley s entwined history of urban development and rural preservation has real ramifications today for patterns of racial and class inequality and especially for the evolving meaning of whiteness Immersing herself in meetings of homeowners associations equestrian organizations and redistricting committees Barraclough uncovers the racial biases embedded in rhetoric about open space and western heritage The Valley s urban cowboys enjoy exclusive semirural landscapes alongside the opportunities afforded by one of the world s largest cities Despite this enviable position they have at their disposal powerful articulations of both white victimization and with little contradiction color blind politics
