

DUALISM

Dualism is the concept that our mind is more than just our brain. This concept entails that our mind has a non-material, spiritual dimension that includes consciousness and possibly an eternal attribute. One way to understand this concept is to consider our self as a container including our physical body and physical brain along with a separate non-physical mind, spirit, or soul. The mind, spirit, or soul is considered the conscious part that manifests itself through the brain in a similar way that picture waves and sound waves manifest themselves through a television set. The picture and sound waves are also non-material just like the mind, spirit, or soul.

Comprehensively Define The Concept Dualism:

Metaphysical Dualism, Subjective Idealism, and Existential Loneliness Ben Lazare Mijuskovic, 2021-11-25 Since the ages of the Old Testament the Homeric myths the tragedies of Sophocles and the ensuing theological speculations of the Christian millennium the theme of loneliness has dominated and haunted the Western world In this wide ranging book philosopher Ben Lazare Mijuskovic returns us to our rich philosophical past on the nature of consciousness lived experience and the pining for a meaningful existence that contemporary social science has displaced in its tendency toward material reduction Engaging key metaphysical discussions on causality space time subjectivity the mind body problem personal identity freedom religion and transcendence in ancient scholastic modern and contemporary philosophy he highlights the phenomenology of loneliness that lies at the very core of being human In challenging psychoanalytic and neuroscientific paradigms Mijuskovic argues that isolative existence and self consciousness is not so much of a problem of unconscious conflict or the need for

psychopharmacology as it is the loss of a sense of personal intimacy The issue of the criteria of personal identity in relation to loneliness has long engaged and consumed the interest of theologians ethicists philosophers novelists and psychologists This book will be of great interest to academics and students of the humanities and all those with an interest in the philosophy of loneliness

F. C. Baur's Synthesis of Böhme and Hegel Corneliu Simut, 2014-10-16 In this book Professor Simu shows how Christian theology started to be understood as a Gnostic philosophy of religion in the thought of the 19th century scholar F C Baur Although Baur was seen traditionally as a theologian and biblical exegete Simu argues that he was in fact a philosopher of religion and it was his philosophical reading of Christian theology that informed his biblical preoccupations Specifically Baur's perspective on Christian theology was heavily influenced by Jakob Böhme's esoteric theosophy and Hegel's religious philosophy in some key issues such as creation Lucifer dualism and the connection between spirit and matter coupled with that between philosophy and religion

Nature Exposed to Our Method of Questioning Amy Ione, 2002 *Nature Exposed to our Method of Questioning* explores how we create our cultural assumptions about personhood culture and nature The following four questions frame the study 1 How do premodern modern and postmodern perspectives in art religion philosophy and science differ and interpenetrate 2 What does it mean to integrate questions ideas values and beliefs as we create our living environments 3 What are symbols and metaphors and how do they contribute to the human dialogue 4 How do purpose intention and consciousness foster creativity and influence our perceptions of human living Three conclusions emerged in exploring these questions 1 Models of earlier eras are not comprehensive enough to speak about the nature of our contemporary environment 2 Human models are creative human inventions 3 We benefit in defining open models rather than models which attempt to be universal in an all inclusive fashion

Anthropology as Ethics T. M. S. Evens, 2009 *Anthropology as Ethics* is concerned with rethinking anthropology by rethinking the nature of reality It develops the ontological implications of a defining thesis of the Manchester School that all social orders exhibit basically conflicting

underlying principles Drawing especially on Continental social thought including Wittgenstein Merleau Ponty Levinas Dumont Bourdieu and others and on pre modern sources such as the Hebrew bible the Nuer the Dinka and the Azande the book mounts a radical study of the ontology of self and other in relation to dualism and nondualism It demonstrates how the self other dichotomy disguises fundamental ambiguity or nondualism thus obscuring the essentially ethical dilemmatic and sacrificial nature of all social life It also proposes a reason other than dualist nihilist and instrumental one in which logic is seen as both inimical to and continuous with value Without embracing absolutism the book makes ambiguity and paradox the foundation of an ethical response to the pervasive anti foundationalism of much postmodern thought **Journal of Human**
