and interesting methods for incorporating technology that is affordable and user friendly and for developing online skills that won't become obsolete as computer hardware and software evolves. Technology in Social Work Education and Curriculum transforms technology into an everyday resource for agency field instructors, human service educators, trainers, and social work administrators. The book addresses concerns that educators with limited technical skills may have in using technology to teach cultural competency, group work, research, direct practice, social policy, and advocacy, and field practicum, presenting hands-on approaches that are innovative but accessible. And by focusing on approaches rather than simply reviewing available hardware and software, the book provides you with background knowledge that makes it easier for you to successfully incorporate online learning into the classroom. Technology in Social Work Education and Curriculum examines using instructional technology to emotionally engage students in the learning process, using digital video and qualitative data analysis software to teach group practice, the role technology plays in advocacy, distance education, technologies in policy education, incorporating Web-assisted learning into a traditional classroom, setting the advantages of distance education over more conventional approaches, a model for planning the use and integration of computer technology in schools of social work, how the behaviors of computer consultants can affect the students who seek their help, using innovation diffusion theory in technology planning, and much more. Social workers have traditionally embraced the latest technologies and scientific developments since the earliest days of the profession. Technology in Social Work Education and Curriculum helps continue that tradition, offering invaluable guidance to educators and administrators, no matter how experienced or inexperienced they are in dealing with communications technologies.
