American Literature and the Culture of Reprinting, 1834-1853 Meredith L. McGill, 2013-10-11 The antebellum period has long been identified with the belated emergence of a truly national literature And yet as Meredith L McGill argues a mass market for books in this period was built and sustained through what we would call rampant literary piracy a national literature developed not despite but because of the systematic copying of foreign works Restoring a political dimension to accounts of the economic grounds of antebellum literature McGill unfolds the legal arguments and political struggles that produced an American culture of reprinting and held it in place for two crucial decades In this culture of reprinting the circulation of print outstripped authorial and editorial control McGill examines the workings of literary culture within this market shifting her gaze from first and authorized editions to reprints and piracies from the form of the book to the intersection of book and periodical publishing and from a national literature to an internally divided and transatlantic literary marketplace Through readings of the work of Dickens Poe and Hawthorne McGill seeks both to analyze how changes in the conditions of publication influenced literary form and to measure what was lost as literary markets became centralized and literary culture became stratified in the early 1850s *American Literature and the Culture of Reprinting 1834 1853* delineates a distinctive literary culture that was regional in articulation and transnational in scope while questioning the grounds of the startlingly recent but nonetheless powerful equation of the national interest with the extension of authors rights **The**

and Practice of Classic Detective Fiction Jerome H. Delamater, Ruth Prigozy, 1997-10-28 Combining theoretical and practical approaches this collection of essays explores classic detective fiction from a variety of contemporary viewpoints Among the diverse perspectives are those which interrogate the way the genre reflects important social and cultural attitudes contributes to a reader s ability to adapt to the challenges of daily life and provides alternate takes on the role of the detective as an investigator and arbiter of truth Part I looks at the nature of and the audience for detective fiction as well

as at the genre as a literary form This section includes an inquiry into the role of the detective an application of object relations psychology to the genre and analyses of recent literary criticism positing that traditional detective fiction contained the seeds of its own subversion Part II applies a variety of theoretical positions to Agatha Christie and her heirs in the British ratiocinative tradition A concluding essay positions the genre within the middle class traditions of the novel since its inception in the eighteenth century Of interest to all scholars and students of detective fiction and British popular culture

The Year's Best Science Fiction: Nineteenth Annual Collection Gardner Dozois, 2002-07-22 The twenty first century has so far proven to be exciting and wondrous and filled with challenges we had never dreamed New possibilities previously unimagined appear almost daily and science fiction stories continue to explore those possibilities with delightful results Collected in this anthology are such compelling stories as On K2 with Kanakaredes by Dan Simmons A relentlessly paced and

absorbing tale set in the near future about three mountain climbers who must scale the face of K2 with some very odd company The Human Front by Ken MacLeod In this compassionate coming of age tale the details of life are just a bit off from things as we know them and nothing is as it appears to be Glacial by Alastair Reynolds A fascinating discovery on a distant planet leads to mass death and a wrenching mystery as spellbinding as anything in recent short fiction The twenty six stories in this collection imaginatively takes us far across the universe into the very core of our beings to the realm of the gods and the moment just after now Included here are the works of masters of the form and of bright new talents including Eleanor Arnason Chris Beckett Michael Blumlein Michael Cassutt Brenda W Clough Paul Di Filippo Andy Duncan Carolyn Ives Gilman Jim Grimsley Simon Ings James Patrick Kelly Leigh Kennedy Nancy Kress Ian R MacLeod Ken MacLeod Paul J McAuley Maureen F McHugh Robert Reed Alastair Reynolds Geoff Ryman William Sanders Dan Simmons Allen M Steele Charles Stross Michael Swanwick Howard Waldrop Supplementing the stories are the editor's insightful summation of the year's events and a lengthy list of honorable mentions making this book a valuable resource in addition to serving as the single best place in the universe to find stories that stir the imagination and the heart *Unity and Design in Horace's Odes* Matthew S.

Santirocco, 2015-01-01 Horace's first three books of Odes published together in 23 B C are a masterpiece of Augustan literature and the culmination of classical lyric Matthew Santirocco provides the first new critical approach to them in English in more than two decades Drawing on recent works on ancient and modern poetry books and using several contemporary critical methodologies Santirocco reveals the Odes both as individual poems and as components in a larger poetic design His reading of Horace demonstrates that the ensemble is itself an important context for understanding and appreciating the poetry Reconstructing the history of the ancient poetry book both Greek and Roman Santirocco challenges certain common assumptions about its origin and development He argues that true parallels for the Odes are not to be found in the other Augustan books which are relatively homogeneous in content and form but in the heterogeneous collections of Hellenistic writers Odes I-III comprise eighty eight poems in twelve different meters and in tone and topic they vary widely Avoiding the two extremes of past scholarship which either has searched for a single underlying unity or else has denied any meaningful design Santirocco uncovers a variety of both static and dynamic structures and shows their relevance to the literary interpretation of the poems at all levels Ultimately the composition of a poem and the disposition of the group are shown to be analogous activities Odes I-III do not constitute a medley of discrete poems but instead approximate the unity of a single ode **The Year's Best Science Fiction: Eleventh Annual Collection** Gardner Dozois, 1994-06-15 The dozens of delightful stories in this anthology dazzle the mind with visions of tomorrow and yesterday of here and now On display is the work of many of today's greatest writers and tomorrow's including Brian W Aldiss Stephen Baxter Neal Barrett Jr Pat

Cadigan Jack Cady Greg Egan Joe Haldeman David B Kisor Nancy Kress Ian R MacLeod Maureen F McHugh G David Nordley Rebecca Ore Robert Reed Mike Resnick Mark Rich Charles Sheffield Dan Simmons William Browning Spencer Bruce Sterling

Steven Utley Don Webb Walter Jon Williams Connie Willis A long list of Honorable Mentions and an insightful roundup of the year in science fiction make the book indispensable for every fan of fantastic fiction Intriguing characters creative settings and a certain amount of consciousness raising are evident in many selections Readers have a useful jumping off point should they wish to continue their explorations of an expanding literary universe Publishers Weekly *Kirberger's monthly gazette of English literature* ,
