established E Z Recycling They worked with local school children and their community and they helped other communities start their own recycling programs But Milly knew that the large scale recycling of plastics would never work unless people could easily identify the seven types She came up with the idea of placing an identifying number in the little recycling triangle which has become the international standard Milly s story is a glimpse into the early days of the recycling movement and shows how thanks to her determination hard work and community building huge changes took place spreading rapidly across North America Correlates to the Common Core State Standards in English Language Arts CCSS ELA LITERACY RI 3 3 Describe the relationship between a series of historical events scientific ideas or concepts or steps in technical procedures in a text using language that pertains to time sequence and cause effect CCSS ELA LITERACY RI 4 7 Interpret information presented visually orally or quantitatively e g in charts graphs diagrams time lines animations or interactive elements on Web pages and explain how the information contributes to an understanding of the text in which it appears **The Ultimate**
