*Rip's Book of Common Sense Selling* Rip Walker, 2009-11-25 This book will help salespeople sell more, make more money and at the same time help them achieve greater customer satisfaction. It will help salespeople or managers develop effective sales processes which will improve sales performance. The author Rip Walker has sold millions of dollars in products and services in different industries. He has also trained thousands of salespeople to become successful as well. By following tips and using ideas from this book, you and/or your sales staff can improve your sales and your profitability.

How to Develop Professional Selling Skills & Techniques Based on Common Sense & Ethics Anthony J. Danna, 2005 The message I have for salespeople is based on the knowledge and experience I have acquired from over 45 years of real world selling, sales management, sales training and management of customer service support centers. The knowledge and insights I want to pass along with my book have not been learned in sales training classes and seminars I have attended or books I have read. The finer selling and human relation techniques I have developed and presented in my book have been learned in the real world of selling. This book is intended to make salespeople aware of the advanced techniques of how to become a successful professional salesperson. These techniques will enable salespeople to attain a higher level of professionalism, confidence, enthusiasm and success when selling. They will be able to separate themselves as true professionals from the crowded field of other capable sales people in their lines of business. My objective is to pass along the knowledge and insights that I have acquired throughout my years of real world selling. This book identifies common selling mistakes and how to avoid them. This book will also reveal to you the many proven successful selling techniques that I have learned and developed over the years. By learning, understanding and applying these finer techniques of selling, you will be able to further develop your existing selling talents, abilities and skills into your own personalized art form of selling. Another purpose of this book is to present guidelines on how to develop, practice and implement techniques for successful professional selling based on common sense and ethics. Using a common sense approach towards selling will build upon the fact that becoming a successful salesperson involves maintaining a positive frame of mind. It has to do with how you think. It has to do with how you approach selling in your mind and place trust in your intuition. A successful salesperson's two most valuable assets are their mind and their time. Ethics is presented as a key approach. Ethics is such an important topic that I felt the need to instruct salespeople on how to professionally develop and earn their customer's confidence and trust based on ethical business practices. This book will present information and examples on how to develop professional selling skills based on ethical standards. These standards will relate directly to your moral character. The strength of your character will be based on your ability to develop and adhere to high moral standards and principles that will help to set you apart from other salespeople. This book is divided into two sections. The first section examines Selling Essentials. In the second section, I focus on the Secrets Of Selling where I reveal my 120 Fundamental Secrets Of Professional Salespeople. The information, suggestions, techniques, strategies and insights in

this book are candid straightforward realistic and in focus They are presented in a condensed form so that they can be easily remembered referred to and applied on a daily basis The chapters are designed to be easily read digested and implemented by the reader The brevity of some chapters is intended to appeal to people seeking real world practical no nonsense answers to making themselves better salespeople and therefore making their sales team more effective **How to Sell More, in**
