Defining Boundaries in al-Andalus Janina M. Safran, 2013-04-09 Al Andalus the Arabic name for the medieval Islamic state in Iberia endured for over 750 years following the Arab and Berber conquest of Hispania in 711 While the popular perception of al Andalus is that of a land of religious tolerance and cultural cooperation the fact is that we know relatively little about how Muslims governed Christians and Jews in al Andalus and about social relations among Muslims Christians and Jews In *Defining Boundaries in al Andalus* Janina M Safran takes a close look at the structure and practice of Muslim political and legal religious authority and offers a rare look at intercommunal life in Iberia during the first three centuries of Islamic rule Safran makes creative use of a body of evidence that until now has gone largely untapped by historians the writings and opinions of Andalusí and Maghribí jurists during the Umayyad dynasty These sources enable her to bring to life a society undergoing dramatic transformation Obvious differences between conquerors and conquered and Muslims and non Muslims became blurred over time by transculturation intermarriage and conversion Safran examines ample evidence of intimate contact between individuals of different religious communities and of legal juridical accommodation to develop an argument about how legal religious authorities interpreted the social contract between the Muslim regime and the Christian and Jewish populations Providing a variety of examples of boundary testing and negotiation and bringing judges jurists and their legal opinions and texts into the narrative of Andalusí history Safran deepens our understanding of the politics of Umayyad rule makes Islamic law tangibly social and renders intercommunal relations vividly personal *Christian-Muslim Relations. Routledge Handbook on Christian-Muslim Relations David Thomas, 2017-08-16. The matter of Christian-Muslim relations cannot be ignored these days. While the term itself may not appear all that often, relations between the two faiths and their reciprocal perceptions are undeniable influences behind many current conflicts, declarations of mutual recognition and peace negotiations, not to mention the brooding hatred of religious extremists. Since 9/11, relations between the two faiths have in one form or another hardly been away from the news. This Handbook contains fundamental information about the major aspects of relations between Christians and Muslims. Its various sections follow the history from the early seventh century to

the present the major religious issues that have led to disputes between the two faiths and the political implications of religious differences at various stages through history as well as in the present It includes analysis of scriptural and theological themes and explores the characteristics of relations at important points in history and also in various parts of the world today Chapters are devoted to the most significant intellectual interpretations and encounters the main armed clashes including the Crusades and the important documents issued by each faith that in recent years have led the way towards new developments in recognition and acceptance With chapters written by some of the foremost experts in the field the book traces the largely dark history of relations and explains the underlying reasons why Muslims and Christians have found tolerance and respect for the other difficult It is an excellent resource for understanding the past and for highlighting lessons for future relations between the world's two largest religions

Edging Toward Iberia Jean Dangler, 2017-06-30

Nonmodern Iberia was a fluid space of shifting political kingdoms and culturally diverse communities Scholars have long used a series of obsolete investigative frameworks such as the Reconquista along with modern ideas of nation states periodization and geography that are inadequate to the study of Iberia's complex heterogeneity In *Edging Toward Iberia* Jean Dangler argues that new tools and frameworks for research are needed She proposes a combination of network theory by Manuel Castells and World Systems Analysis as devised by Immanuel Wallerstein to show how network and system principles can be employed to conceptualize and analyze nonmodern Iberia in more comprehensive ways Network principles are applied to the well known themes of medieval trade

and travel along with the socioeconomic conditions of feudalism slavery and poverty to demonstrate how questions of power and temporal historical change may be addressed through system tenets Edging Toward Iberia challenges current historical and literary research methods and brings a fresh perspective on the examination of politics identity and culture
