Critical Thinking and American Government Kent Brudney, Mark Weber, 2012-06-20 *Critical Thinking and American Government* contains 41 critical thinking exercises that use a wide variety of sources to actively engage students in understanding and thinking critically about American government and politics. These sources include court decisions, the Federalist Papers, legislation, public opinion polls, elections results, apportionment and population tables, data on topics such as African American representation in Congress among many others. The critical thinking exercises require students to interpret and analyze data, discover basic relationships among variables, read critically, summarize information accurately and formulate generalizations and hypotheses. The exercises are based on the scholarship of teaching and learning. Each exercise contains clear and discrete student learning objectives which facilitate the measurement and assessment of student outcomes and learning.

Clued in to Politics Christine Barbour, Matthew J. Streb, 2013-11-11 *Clued in to Politics: A Critical Thinking Reader in American Government* Fourth Edition, edited by Christine Barbour and Matthew J. Streb, is a collection of contemporary American government readings, more than half new to this edition, that uses proven pedagogy for modeling critical thinking. The editors write a contextual headnote for why we chose this piece and then follow every reading with questions that employ the CLUES method: Consider the source, Lay out the argument, Uncover the evidence, Evaluate the conclusion, and Sort out the political implications. By consistently walking students through a process for close reading and analysis, students pick up the habit of critical thinking and internalize a process that moves them far beyond regurgitating information. The chapters line up with coverage in introductory American government texts. **Understanding American Government and Politics** Susan
