Critical Terms For Art History:

Critical Terms for Art History, Second Edition Robert S. Nelson, Richard Shiff, 2003-04 The words used to describe and analyse art are the subject of this examination of the new scope of art history and the terms used by those involved in visual and pictorial theory

Critical Terms for Art History, Second Edition Robert S. Nelson, Richard Shiff, 2010-03-15 Art has always been contested terrain whether the object in question is a medieval tapestry or Duchamp's Fountain But questions about the categories of art and art history acquired increased urgency during the 1970s when new developments in critical theory and other intellectual projects dramatically transformed the discipline The first edition of Critical Terms for Art History both mapped and contributed to those transformations offering a spirited reassessment of the field's methods and terminology Art history as a field has kept pace with debates over globalization and other social and political issues in recent years making a second edition of this book not just timely but crucial Like its predecessor this new edition consists of essays that cover a wide variety of loaded terms in the history of art from sign to meaning ritual to commodity Each essay explains and comments on a single term discussing the issues the term raises and putting the term into practice as an interpretive framework for a specific work of art For example Richard Shiff discusses Originality in Vija Celmins's To Fix the Image in Memory a work made of eleven pairs of stones each consisting of one original stone and one painted bronze replica In addition to the twenty-two original essays this edition includes nine new ones performance style memory monument body beauty ugliness identity visual culture visual studies and social history of art as well as new introductory material All help expand the book's scope while retaining its central goal of stimulating discussion of theoretical issues in art history and making that discussion accessible to both beginning students and senior scholars Contributors Mark Antliff Nina Athanassoglou Kallmyer Stephen Bann Homi K Bhabha Suzanne Preston Blier Michael Camille David Carrier Craig Clunas Whitney Davis Jas Elsner Ivan Gaskell Ann Gibson Charles Harrison James D Herbert Amelia Jones Wolfgang Kemp Joseph Leo Koerner Patricia Leighton Paul Mattick Jr Richard Meyer W J T Mitchell Robert S Nelson Margaret Olin William Pietz Alex Potts Donald Preziosi Lisbet Rausing Richard Shiff Terry Smith Kristine Stiles David Summers Paul Wood James E Young

Critical Terms for Art History Robert S. Nelson, Richard Shiff, 2003 *Art History and Visual Studies in Europe*, 2012-06-22 Reflection on the history and practice of art history has long been a major topic of research and scholarship and this volume builds on this tradition by offering a critical survey of many of the major developments in the contemporary discipline such as the impact of digital technologies the rise of visual studies or new initiatives in conservation theory and practice Alongside these methodological issues this book addresses the mostly neglected question of the impact of national contexts on the development of the discipline Taking a wide range of case studies this book examines the impact of the specific national political institutional and ideological demands on the practice of art history The result is an account that both draws out common features and also highlights the differences and the plurality of practices that together constitute art

history as a discipline History and Art History Nicholas Chare, Mitchell B. Frank, 2020-11-29 Through a series of cross disciplinary and interdisciplinary interventions leading international scholars of history and art history explore ways in which the study of images enhances knowledge of the past and informs our understanding of the present Spanning a diverse range of time periods and places the contributions cumulatively showcase ways in which ongoing dialogue between history and art history raises important aesthetic ethical and political questions for the disciplines The volume fosters a methodological awareness that enriches exchanges across these distinct fields of knowledge This innovative book will be of interest to scholars in art history cultural studies history visual culture and historiography **The Art of Art History** Donald Preziosi, 2009 This anthology is a guide to understanding art history through critical reading of the field s most innovative and influential texts focusing on the past two centuries **Theory for Art History** Jae Emerling, 2013-09-13 Theory for Art History provides clear and concise introductions to thirty key figures of contemporary theory four essential predecessors Freud Marx Nietzsche and Saussure and twenty six major moderns from Adorno to Spivak This book includes key concepts biography survey of work bibliography of primary texts and a bibliography of secondary criticism Adapted from Theory for Religious Studies by William E Deal and Timothy K Beal Aesthetic Hybridity in Mughal Painting, 1526-1658 Valerie Gonzalez, 2016-03-03 The first specialized critical aesthetic study to be published on the concept of hybridity in early Mughal painting this book investigates the workings of the diverse creative forces that led to the formation of a unique Mughal pictorial language Mughal pictoriality distinguishes itself from the Persianate models through the rationalization of the picture s conceptual structure and other visual modes of expression involving the aesthetic concept of mimesis If the stylistic and iconographic results of this transformational process have been well identified and evidenced their hermeneutic interpretation greatly suffers from the neglect of a methodologically updated investigation of the images conceptual underpinning Valerie Gonzalez addresses this lacuna by exploring the operations of cross fertilization at the level of imagistic conceptualization resulting from the multifaceted encounter between the local legacy of Indo Persianate book art the freshly imported Persian models to Mughal India after 1555 and the influx of European art at the Mughal court in the sixteenth and seventeenth centuries The author s close examination of the visuality metaphysical order and aesthetic language of Mughal imagery and portraiture sheds new light on this particular aspect of its aesthetic hybridity which is usually approached monolithically as a historical phenomenon of cross cultural interaction That approach fails to consider specific parameters and features inherent to the artistic practice such as the differences between doxis and praxis conceptualization and realization intentionality and what lies beyond it By studying the distinct phases and principles of hybridization between the variegated pictorial sources at work in the Mughal creative process at the successive levels of the project intention the practice realization and the result product the author deciphers the modalities of appropriation and manipulation of the heterogeneous elements Her unique **Rethinking Australia's Art History** Susan Lowish, 2018-05-30 This book aims to

redefine Australia's earliest art history by chronicling for the first time the birth of the category Aboriginal art tracing the term's use through published literature in the late eighteenth nineteenth and early twentieth centuries Susan Lowish reveals how the idea of Aboriginal art developed in the European imagination manifested in early literature and became a distinct classification with its own criteria and form Part of the larger story of Aboriginal European engagement this book provides a new vision for an Australian art history reconciled with its colonial origins and in recognition of what came before the contemporary phenomena of Aboriginal art
