Criminal Law Henry F. Fradella, Professor in and Associate Director of the School of Criminology and Criminal Justice Henry F Fradella, 2022-06-24 Criminal Law offers a unique hybrid approach to learning criminal law Most textbooks oversimplify the law by presenting the black letter law for major and defenses but they rarely present any corresponding exploration of the gray areas that exist beyond the basic rules of law Conversely casebooks present numerous edited judicial opinions often with context Criminal Law takes the best from each of these approaches by merging textual pedagogy and case analyses into a coherent framework that includes legal history social context and public policy Taking a historical approach legal expert Henry F Fradella presents the law as it evolved from English common law and compares it with the modern statutory approach to crimes set forth in the American Law Institute's highly influential Model Penal Code After providing such comparative pedagogy for each crime or defense Criminal Law presents 12 edited cases that allow the reader to contrast how the black letter law plays out in the real world After each case a series of questions challenge students to engage in critical thinking about the case and its implications as precedent Finally chapters contain a number of additional pedagogical features that focus on public policy concerns and statutory interpretation skills using penal laws from a variety of U S states

Altruism and the Criminal Law Andrew Ashworth, Juan Ignacio Piña Rochefort, 2025-09-18 This book explores the foundations of the principle of altruism and its relationship to the criminal law examining the contrasting justifications for the duty of easy rescue and the duty of tolerance both of which are based on altruism Since the days of Lord Macaulay and James FitzJames Stephen it has been said that English law does not usually punish omissions and that altruistic duties are incompatible with the spirit of the common law This book aims to show that this is not an accurate description of English criminal law and that there is a strong case to be made for the opposite understanding based on principles advanced by authors such as Adam Smith Jeremy Bentham John Stuart Mill and others By analysing the duty of easy rescue which imposes on individuals a duty to take steps to rescue a person in danger if this can be done without risk to the rescuer or at least a duty to call the emergency services and by comparing it with the well known duties arising in cases of extreme necessity it can be shown that altruism has plenty to say in different parts of the criminal law Having established the case for criminalising the failure to provide a simple rescue a detailed analysis is made of the form that this criminalisation should take bearing in mind the basic principles of English law and considering the strengths and weaknesses of the duty of easy rescue as it is formulated in various continental systems including the German French Spanish and Italian criminal codes
