Call Me Corp Prisoner Survival:

Surviving the Forgotten Genocide John Minassian, 2020-03-27 A rare and poignant testimony of a survivor of the Armenian genocide The twentieth century was an era of genocide which started with the Turkish destruction of more than one million Armenian men women and children a modern process of total violent erasure that began in 1895 and exploded under the cover of the First World War John Minassian lived through this as a young man witnessing the murder of his kin concealing his identity as an orphan and laborer in Syria and eventually immigrating to the United States to start his life anew A rare testimony of a survivor of the Armenian genocide one of just a handful of accounts in English Minassian's memoir is breathtaking in its vivid portraits of Armenian life and culture and poignant in its sensitive recollections of the many people who harmed and helped him As well as a searing testimony his memoir documents the wartime policies and behavior of Ottoman officials and their collaborators the roles played by foreign armies and American missionaries and the ultimate collapse of the empire The author's journey and his powerful story of perseverance despair and survival will resonate with readers today

A Village with My Name Scott Tong, 2017-11-17 An

immensely readable journey through modern Chinese history told through the experiences of the author's extended family. Christian Science Monitor When journalist Scott Tong moved to Shanghai his assignment was to start the first full time China bureau for Marketplace the daily business and economics program on public radio stations across the US. But for Tong the move became much more an opportunity to reconnect with members of his extended family who'd remained there after his parents fled the communists six decades prior. Uncovering their stories gave him a new way to understand modern China's defining moments and its long interrupted quest to go global. A Village with My Name offers a unique perspective on China's transitions through the eyes of regular people who witnessed such epochal events as the toppling of the Qing monarchy, Japan's occupation during WWII, exile of political prisoners to forced labor camps, mass death and famine during the Great Leap Forward, market reforms under Deng Xiaoping and the dawn of the One Child Policy. Tong focuses on five members of his family who each offer a specific window on a changing country: a rare American educated girl born in the closing days of the Qing Dynasty, a pioneer exchange student, a toddler abandoned in wartime who later rides the wave of China's global export boom, a young professional climbing the ladder at a multinational company, and an orphan, the author's daughter, adopted in the middle of a baby selling scandal fueled by foreign money. Through their stories Tong shows us China anew: visiting former prison labor camps on the Tibetan plateau and rural outposts along the Yangtze, exploring the Shanghai of the 1930s and touring factories across the mainland, providing a compelling and deeply personal take on how China became what it is today. Vivid and readable. The book's focus on ordinary people makes it refreshingly accessible. Financial Times Tong tells his story with humor, a little snark and lots of love. Highly recommended especially for those interested in Chinese history and family journeys. Library Journal starred review
