Estudio del sector editorial de los juegos de rol en España :historia, tipología, perfil de lector, del autor, del traductor y del editor Héctor Sevillano Pareja, 2009-06-18 *A lomos de dragones* Isabel Clúa, 2017-02-06 Como cualquier otro género la fantasía plantea un buen número de desafíos teóricos que tienen que ver con la noción misma de género literario Aunque la clasificación de especies literarias tiene una tradición que se remonta a los orígenes de la reflexión sobre la literatura la definición genérica resulta un proceso bastante más complejo que reconocer una serie de rasgos formales y temáticos que una serie de textos comparten y en virtud de la cual se agrupan de manera estable La complejidad de este proceso tiene que ver con dos asuntos de índole diversa Por un lado como se alía Derrida en su clásico *La ley del género* La loi du genre 1986

delimitar un género cualquier género implica una lógica de pureza e impureza que es totalmente tautológica se necesita un afuera una serie de textos genéricamente impuros para poder sostener la pureza teórica del género de ahí que el autor replantee la relación entre texto género y proponga más que la pertenencia de un texto a un género la participación del texto en ciertos modelos genéricos La idea de participación es también útil si nos desplazamos a un ámbito más pragmático tal y como las teorizaciones en el campo del cine nos han hecho ver el género dista mucho de ser un simple contenedor en el que agrupar textos parecidos es una etiqueta que no sólo regula la producción y circulación de los textos sino que también como se afirma Altman 2000 se vincula a una suerte de contrato espectadorial que activa el horizonte de expectativas de la audiencia y determina por tanto la recepción del texto Así pues el género resulta ser uno de los marcadores más evidentes que opera sobre los textos culturales y determina no sólo la configuración y recepción de los textos sino también su posición dentro del campo cultural
