resources **Urban Regeneration and Real Estate Development** Andrea Ciaramella, Marco Dall'Orso, 2021-02-01 The book reflects on how intelligent urban regeneration can be an extraordinary driver of sustainable social and economic progress. It provides a friendly, evergreen and flexible thinking methodology that can serve as a reference guide to address a wide range of initiatives creating the conditions to thrive in an increasingly selective, rapidly changing and unpredictable market context. The book throws light on the importance of adopting an open approach based on collaboration, crafting strong visions, developing appealing value propositions, embracing a modern leadership style and setting up highly effective multi-disciplinary teams for the execution. It illustrates how standard approaches should be re-designed, business models innovated and processes re-engineered to guarantee better alignment between supply and demand of real estate as markets shift and new differentiators emerge among competitors. The book makes clear that creating a vibrant urban ecosystem requires a gradual shift of focus from built environment investment to socio-economic output. It targets a wide audience of private and public sector professionals active in urban regeneration and real estate development.

Global Health Security Anthony J. Masys, Ricardo Izurieta, Miguel Reina Ortiz, 2020-01-01 With our highly connected and interdependent world, the growing threat of infectious diseases and public health crisis has shed light on the requirement for global efforts to manage and combat highly pathogenic infectious diseases and other public health crises on an unprecedented level. Such disease threats transcend borders. Reducing global threats posed by infectious disease outbreaks, whether naturally caused or resulting from a deliberate or accidental release, requires efforts that cross the disaster management pillars: mitigation, preparedness, response and recovery. This book addresses the issues of global health security along 4 themes: Emerging Threats, Mitigation, Preparedness, Response and Recovery. Exploring the Technology Landscape for Solutions, Leadership and Partnership. The authors of this volume highlight many of the challenges that confront our global security environment today. These range from politically induced disasters to food insecurity, zoonosis and terrorism. More optimistically, the authors also present some advances in technology that can help us combat these threats. Understanding the challenges that confront us and the tools we have to overcome them will allow us to face our future with confidence.
