Current Legal Issues In Publishing Current Legal Issues In Publishing:

Current Legal Issues in Publishing A. Bruce Strauch, 1996 *Current Legal Issues in Publishing* sheds light on important issues of the ever changing often confusing world of copyright licensing and taxation as we move into the twenty first century You ll see how the questions of ownership fair use and licensing have become exacerbated by the fact that information is no longer static but rather fluid and transportable In an age of advancing technology this book anticipates how Congress and the courts will be called upon with more and more frequency to maintain a balance between the copyright holder s economic interests and society s right to have access to information Reading this book wil give you an understanding of the fundamental aspects and concepts of the Copyright Act such as what constitutes an original work for what categories copyright protection is available and the basic rights of the copyright holder and how they are being challenged in the digital world The information and copyright landscape as you will quickly percieve becomes even more hazy in the context of the public library and university where special rights to information exist to facilitate learning and scholarship Using this book as a tool you will learn that because the future of the electronic age is unpredictable copyright holders and university and library communities must work together to remain flexible and recognize the others interests particularly in the legislative arena Comprehensive and informative *Current Legal Issues in Publishing* looks at the copyright debate from many different perspectives including from the creator user community and legal angles Among the important topics you will read about are the Uruguay Round Agreement the responsibility of copyright university ownership of faculty copyrights *American Geophysical Union v Texaco Inc* the Newark Morning Ledger Case library privileges and fair use legal aspects of electronic publishing on line distribution rights As you read *Current Legal Issues in Publishing* and are introduced to the origins and development of copyright conventions the measures taken to combat book piracy and the conflict between industrial nations and developing ones over copyright issues you will form your own conclusions to the arguments for and against the current worldwide copyright system You will also see that questions of ownership and economic and market rights are inextricably linked with questions of power and who can or cannot have access to information *Publishing and the Law* A. Bruce Strauch, 2001 This timely volume sheds light on the important legal issues that influence the scholarly publishing world The often confusing field of publishing law including copyright licensing liability electronic publishing and taxation is going through an unprecedented upheaval as we move into the twenty first century *Publishing and the Law Current Legal Issues* offers clear current explanations of the implications of recent laws and technologies and predicts what further changes to expect **Collection Development Issues in the Online Environment** Di Su, 2013-10-28 Expand your knowledge of problems and possibilities with e material acquisitions around the world to aid in making your own decisions The demand for electronic material in academic libraries is growing and shows no sign of abating *Collection Development Issues in the Online Environment* addresses key issues in electronic materials development and presents cutting edge practices from

academic libraries around the world Leading authorities reveal insights on both common and special concerns that every library administrator can use in making decisions about their own collections The text also presents real life case studies illustrating approaches that can be modified for effective planning of your own library acquisitions The strategies are practical the information clear and helpful all of it contained in a single useful volume that every information science professional or academic can use Collection Development Issues in the Online Environment is separated into three sections The first section tackles issues common to most academic libraries such as electronic journal delivery and budgeting The second section addresses special library digital issues such as the preservation and dissemination of unique types of information such as annual reports The final section delves into the future of library electronic acquisitions and the coming challenges This text is carefully referenced and includes tables and figures to enhance understanding of the subjects Collection Development Issues in the Online Environment topics include virtual learning environments VLE problems of pricing and access with individually ordered or packaged electronic journals budgeting issues in electronic resources management of electronic only versions of journals electronic vs paper serials including selection criteria of each copyright law and its impact on electronic acquisitions subscriptions to databases and the variations in depth and quality of indexing the challenges in creation of an electronic collection of historical annual reports costs and delivery options for unbundled and integrated media materials systematic incentives to implement archiving of peer reviewed papers produced by faculty PDA serials issues Collection Development Issues in the Online Environment is helpful horizon expanding information for librarians library administrators archivists publishers and library and information science educators and students

Out-of-Print and Special Collection Materials Linda S Katz, 2018-10-24 An invaluable how to for librarians and archivists inside insights from leading collectors This essential guide to the acquisition process covers every aspect of the search for hard to find materials Out of Print and Special Collection Materials Acquisition and Purchasing Options is a handbook of traditional and not so traditional methods for identifying locating and acquiring rare items from a variety of sources The book serves as a comprehensive reference for professionals and students alike drawing on the experiences of the foremost archivists in their fields The book offers a unique assortment of specialized essays informative and instructive The assembled collectors are your guides on a journey in search of rare items through specialty catalogs and special circumstances libraries and bookshops collections and book stocks through the print underground of the acquisitions world Topics range from the basics of acquisitions to setting and sticking to a budget building a collection determining the market value of out of print materials and more detailed looks at individual areas of research Experienced archivists and budding collectors will find indispensable information on a variety of vital topics in this book including out of print music underground poetry acquisitions outside the United States planning a collection hard to find materials on science technology and medicine out of print literature The History of the Book in the West: 1914-2000 Alexis Weedon, 2017-03-02 This collection brings together

published papers on key themes which book historians have identified as of particular significance in the history of twentieth century publishing. It reprints some of the best comparative perspectives and most insightful and innovatively presented scholarship on publishing and book history from such figures as Philip Altbach, Lewis Coser, James Curran, Elizabeth Long, Laura Miller, Angus Phillips, Janice Radway, Jonathan Rose, Shafquat Towheed, Catherine Turner, Jay Satterfield, Clare Squires, Eva Hemmungs Wirtén. It is arranged into six sections which examine the internationalisation of publishing businesses, changing notions of authorship, innovation in the design and marketing of books, the specific effects of globalisation on creative property and the book in a multimedia marketplace. Twentieth century book history attracts an audience beyond the traditional disciplines of librarianship, bibliography, history and literary studies. It will appeal to publishing educators, editors, publishers, booksellers as well as academics with an interest in media and popular culture.

Controversies in American Federalism and Public Policy Christopher P. Banks, 2018-03-13. This interdisciplinary collection presents a scholarly treatment of how the constitutional politics of federalism affect governments and citizens, offering an accessible yet comprehensive analysis of the U.S. Supreme Court's federalism jurisprudence and its effect on the development of national and state policies in key areas of constitutional jurisprudence. The contributors address the impact that Supreme Court federalism precedents have in setting the parameters of national law and policies that the states are often bound to respect under constitutional law, including those that relate to the scope and application of gun rights, LGBT freedoms, health care, administration, anti-terrorism initiatives, capital punishment, immigration and environmental regulation, the legalization of marijuana, and voting rights. Uniting scholarship in law, political science, criminology, and public administration, the chapters study the themes, principles, and politics that traditionally have been at the center of federalism research across different academic disciplines. They look at the origins, nature, and effect of dual and cooperative federalism, presidential powers, and administrative regulation, state sovereignty, and states' rights, judicial federalism, and the advocacy of organized interests.

The Columbia Guide to Digital Publishing William E. Kasdorf, 2003. The first comprehensive guide to all aspects of digital publishing, from rights to eBooks to accessibility to content management.

Controversies in Equal Protection Cases in America Anne Richardson Oakes, 2016-03-03. This collection engages with current issues on equal protection in the USA as seen from the perspectives of leading academics in this area. Contributors with a range of perspectives interrogate the legal, theoretical, and factual assumptions which shape case law and consider the extent to which they satisfactorily address contemporary concerns with social hierarchies and norms. Divided into five parts, the study focusses on the connections between equal protection jurisprudence, discrimination in its contemporary manifestations, the implications of identity politics, and the moral and political conceptualizations of equality that represent the parameters of debate. Drawing on historical analysis and disciplinary insights of the social sciences, the book bridges the gap between theory and practice. The themes presented and analyses developed are among some of the most contentious currently in America and will be of interest not

just to lawyers and legal academics but also to inter disciplinary social science researchers including sociologists economists and political scientists

Collection Development Policies Daniel C. Mack, 2003 Get the tools you need to build a collection development policy that will help your library run efficiently today and in the future Considering the amount and variety of topics being published effectively organizing and guiding a library in today's accelerated world is no easy task
