Calvino Gli Amori Difficili:

Italo Calvino Tommasina Gabriele, 1994 She uncovers the apparent contradiction that while Calvino repeatedly advocated throughout his career of forty plus years a precise language this call for precision did not extend to erotic subject matter where Calvino sometimes felt that direct representation was virtually impossible Gabriele finds that in Calvino the challenge of erotic representation is linked to the complexity of the writer's role especially as articulated in Calvino's famous article *Cibernetica e fantasmi* Image, Eye and Art in Calvino Birgitte Grundtvig, 2017-07-05 Few recent writers have been as interested in the cross over between texts and visual art as Italo Calvino 1923-85 Involved for most of his life in the publishing industry he took as much interest in the visual as in the textual aspects of his own and other writers' books In this volume twenty international Calvino experts including Barengi Battistini Belpoliti Hofstadter Ricci Scarpa and others consider the many facets of the interplay between the visual and textual in Calvino's works from the use of colours in his fiction to the influence of cartoons from the graphic qualities of the book covers themselves to the significance of photography and landscape in his fiction and non-fiction The volume is appropriately illustrated with images evoked by Calvino's major texts Calvino and the Pygmalion Paradigm Bridget Tompkins, 2015-06-28 Calvino and the Pygmalion Paradigm Fashioning the Feminine in *I nostri antenati* and *Gli amori difficili* is the first book-length analysis of the representation of the feminine in Calvino's fiction Using the structural umbrella of the Pygmalion paradigm and using feminist interpretative techniques this book offers interesting alternative readings of two of Calvino's important early narrative collections The Pygmalion paradigm concerns the creation by a male artist of a feminine ideal and highlights the artificiality and narcissistic desire associated with the creation process This book discusses Calvino's active and deliberate work of self-creation accomplished through extensive self-commentaries and exposes both the lack of importance Calvino placed on the feminine in his narratives and the relative absence of critical attention focused on this area Relying on the analogy between Pygmalion's pieces of ivory and Barthes' *sem* and drawing upon the ideas underlying Kristeva's intertextuality the book demonstrates that despite Calvino's professed lack of interest in character development his female characters are carefully and purposefully constructed A close reading of Calvino's narratives engaging directly with Freud Lacan and the feminist psychoanalytical thinking of Kofmann Kristeva Kaplan and others demonstrates how Calvino uses his female characters as foils for the existential reflections of his typically maladjusted and narcissistic male characters

Painting with Words, Writing with Pictures Franco Ricci, 2001-01-01 Ricci's book ranges widely over Calvino's oeuvre to illustrate the accuracy of the idea articulated by Calvino himself that a visual image lies at the origin of all his narrative The book's main theme is the difficult interface between word and image that Calvino struggled with throughout his career the act of perception that rendered visible that which was invisible and transformed what was seen into what is read Ricci holds that Calvino's narrative has an imagocentric program and that his literary strategy is ekphrastic i.e. it is

characterized by literary description of visual representation real or imaginary The book is interdisciplinary in nature and will interest not only scholars of literature but also those who work with the visual arts and with information technology

Difficult Games Franco Ricci, 2006-01-01 Examining Calvino's literary experiments as a young artist in search of his narrative voice Ricci explores the psychological and existential motivations intrinsically linked to the writer's need for textual and systemic patterning *I racconti* contains some of Calvino's least read works yet these early stories address issues present scenarios and generate a growing variation of themes that form the heart of Calvino's narrative discourse Ricci points out that melancholy permeates Calvino's works even at his most playful He suggests that if Calvino's highest merit was his sense of wonder and his urge to transform and defeat obscurantism with all the joy he could muster one must remember that his work expressed often painfully the limits of human rationalism *I racconti* can thus be read as a catalogue of the anxieties of both the young author and postwar Italian society

The Fire Within Elena Borelli, 2014-04-11 Desire for love desire for knowledge desire to possess desire to desire and to be desired our life is shaped by what we want and by our efforts to achieve it Hailed by philosophers and psychoanalysts as the core of human identity desire informs not only our actions but also our dreams and hopes and their sublimation into art and literature This collection of essays explores how desire is portrayed in modern and contemporary Italian literature by analysing some of the most interesting literary figures of the last two centuries The authors of this collection approach desire from various perspectives psychoanalytical sociological political and semiotic in order to show that desire albeit at times not explicitly mentioned pervades the literary works of modern and contemporary Italy either as a central theme or as the secret motor of the narrative Through the fil rouge of desire the essays of this collection highlight the international dimension of Italian literature establishing a connection between Italian authors and the major theoretical works of the last two centuries As the notion of desire as represented in literary texts is informed by psychoanalytical and philosophical concepts that operate across the boundaries of nationality and language modernists and scholars of Comparative Literature will find the papers in this book of considerable interest

Gli amori difficili Italo Calvino, 1990

Italo Calvino Italo Calvino, 2013-06-17 The first collection of letters in English by one of the great writers of the twentieth century This is the first collection in English of the extraordinary letters of one of the great writers of the twentieth century Italy's most important postwar novelist Italo Calvino 1923-1985 achieved worldwide fame with such books as *Cosmicomics* *Invisible Cities* and *If on a Winter's Night a Traveler* But he was also an influential literary critic an important literary editor and a masterful letter writer whose correspondents included Umberto Eco Primo Levi Gore Vidal Leonardo Sciascia Natalia Ginzburg Michelangelo Antonioni Pier Paolo Pasolini and Luciano Berio This book includes a generous selection of about 650 letters written between World War II and the end of Calvino's life Selected and introduced by Michael Wood the letters are expertly rendered into English and annotated by well known Calvino translator Martin McLaughlin The letters are filled with insights about Calvino's writing and that of others about Italian American English and

French literature about literary criticism and literature in general and about culture and politics The book also provides a kind of autobiography documenting Calvino's Communism and his resignation from the party in 1957 his eye opening trip to the United States in 1959-60 his move to Paris where he lived from 1967 to 1980 and his trip to his birthplace in Cuba where he met Che Guevara Some lengthy letters amount almost to critical essays while one is an appropriately brief defense of brevity and there is an even shorter reassuring note to his parents written on a scrap of paper while he and his brother were in hiding during the antifascist Resistance This is a book that will fascinate and delight Calvino fans and anyone else interested in a remarkable portrait of a great writer at work

Technologies of Gender Teresa de Lauretis, 1987-11-22

Technologies of Gender builds a bridge between the fashionable orthodoxies of academic theory Lacan Foucault Derrida et al and the frequently marginalized contributions of feminist theory In sum de Lauretis has written a book that should be required reading for every feminist in need of theoretical ammunition and for every theorist in need of feminist enlightenment B Ruby Rich sets philosophical ideas humming she has much to say Cineaste I can think of no other work that pushes the debate on the female subject forward with such passion and intellectual rigor SubStance This book addresses the question of gender in poststructuralist theoretical discourse postmodern fiction and women's cinema It examines the construction of gender both as representation and as self representation in relation to several kinds of texts and argues that feminism is producing a radical rewriting as well as a rereading of the dominant forms of Western culture

Calvino's Combinational Creativity Elizabeth Scheiber, 2016-02-08 Calvino's Combinational Creativity examines the various ways combinatory processes influence the work of the Italian author Italo Calvino Comprising chapters by six literary scholars the volume asserts that the Ligurian writer's creativity often stems from his contemplation of literature even as it investigates the intersection of his work with poets writers and literary movements Each chapter explores a different aspect of Calvino's creativity Natalie Berkman examines Calvino as a reader of Ariosto and provides an analysis of mathematical combinations inspired by Vladimir Propp in *Il castello dei destini incrociati* Discussing the poetic and scientific influence of the Argentine writer Julio Cortázar on Calvino Sara Ceroni then presents *Palomar* as a modernist work of epiphanies This is followed by two chapters investigating different influences on *Cosmicomics* Elio Baldi demonstrates how Calvino's collection of stories appropriates various conventions of the science fiction genre while Elizabeth Scheiber provides a close reading of two tales to show how Calvino uses science as a metaphor to comment on the poetics of Italian authors Gadda D'Annunzio Ungaretti and Montale Cecilia Benaglia then proposes Calvino as a reader of Gadda who served not only as an aesthetic influence but also as an epistemological one Finally juxtaposing Calvino with his contemporary Umberto Eco Sebastiano Bazzichetto examines the two authors use of figures of speech as ways of constructing labyrinths Calvino's Combinational Creativity takes Calvino studies in new directions as it rethinks how the author's work can be classified and delves into the sources of his inspiration
