Catalyst In The Wake Of The Great Bhola Cyclone:

Catalyst Cornelia Rohde,2015 **Catalyst** Cornelia Rohde,2014-02-01 The smell came first then the tops of coconut palms floating on tiny stalks above the placid Bay at last the low mud bank with its horrendous burden of decaying bodies I had to run the dinghy down the coast for over a mile before I could find a spot to land without stepping on one of the luckless victims of the cyclone I scrambled up the slippery bank nearly retching and stood on a dirt mound that only last week had been a home There before me was a beautiful golden flattened and utterly desolate land Jon Rohde s account of landing on Manpura November 23 1970 Catalyst is the story of the most devastating cyclone in history which struck one of the most overpopulated and defenseless places on earth On November 12 1970 a massive storm built up a twenty foot high wall of water that surged with deadly force across the low lying islands in the Bay of Bengal The islanders along with their livestock boats possessions and any buildings not made of concrete were flung into the raging wind and sea Only the strongest survived With an estimated half a million deaths the Great Bhola Cyclone stands as the worst in recorded history Drawing on original field notes archival research recollections of participants interviews and memoirs Catalyst tells the true story of the response of a group of young friends to this unprecedented natural disaster and to the subsequent civil war that led to the new nation of Bangladesh A compelling tale about the choices that define us and shape our lives Catalyst illustrates how times of great calamity and confusion can become a cartography of human purpose **Recounting the Memories of**

Bangladesh's Liberation War Smruti S. Pattanaik,2024-02-08 This book encapsulates the creation of Bangladesh with stories of some of those who made it happen from the perspectives of people who fought for recognition of Bangla as one of the state languages of Pakistan those who brought the stories of war to life as it progressed through the Swadhin Bangla Betar Kendro operations by valiant military men sacrifices of Birangonas women of valour whose contribution to the liberation of Bangladesh has often been neglected martyrs who laid down their lives for the birth of the nation and those who worked among the freedom fighters and refugees and kept their morale high The emergence of Bangladesh in 1971 shaped both the nation and its narratives that revolved around partition of the subcontinent earlier in 1947 The history of Bangladesh was rewritten from the people s perspective The struggle of individuals and families who contributed to the liberation of Bangladesh is etched in blood and it is but natural that their perspectives would inform those interested in studying the history of liberation in a larger context More than fifty years have passed since Bangladesh was liberated Yet stories of individual suffering sacrifices and contributions illustrate how people endured the repression inflicted by the Pakistan Army on them and yet fought gallantly Three million were killed 2 million were raped and 10 million became refugees in India Bangladesh s liberation war also represents the struggle of a people to preserve their culture and identity This book captures all these and much more bringing in reminiscences of what 1971 represented to those who contributed directly to the war of liberation The book will be of interest to scholars and researchers of politics and international relations

Hope Over Fate Scott MacMillan, 2022-08-01 Nicholas Kristof of The New York Times called him one of the unsung heroes of modern times Fazle Hasan Abed was a mild mannered accountant who may be the most influential man most people have never even heard of As the founder of BRAC his work had a profound impact on the lives of millions A former finance executive with almost no experience in relief aid he founded BRAC originally the Bangladesh Rehabilitation Assistance Committee in 1972 aiming to help a few thousand war refugees A half century later BRAC is by many measures the largest nongovernmental organization in the world and by many accounts the most effective anti poverty program ever BRAC seems to stand apart from countless failed development ventures Its scale is massive with 100 000 employees reaching more than 100 million people in Asia and Africa In Bangladesh where it began Abed s work gave rise to some of the biggest gains in the basic condition of people s lives ever seen anywhere according to The Economist His methods changed the way global policymakers think about poverty By the time of his death at eighty three in December 2019 he was revered in international development circles Yet among the wider public he remained largely unknown His story has never been told until now Abed avoided the limelight He thought his own story was of little consequence compared to the millions of women who rose from poverty with BRAC s help bending the arc of history through their own tenacity and grit The challenges he faced often seemed insurmountable Abed s personal life was a tapestry of love and grief a lover s suicide a wife who died in his arms He was a taciturn man with a short temper that erupted on rare occasions Many of his ventures failed but Abed persevered This book is also the biography of an idea the idea that hope itself

has the power to overcome poverty For too long people thought poverty was something ordained by a higher power as immutable as the sun and the moon Abed wrote in 2018 His life s mission was to put that myth to rest This is the story of a man who lived a life of complexity blemishes and all driven by the conviction that in the dominion of human lives hope will ultimately triumph over fate

Institutionalizing Health and Education for All Colette Chabbott, 2015-04-28 Health for All and Education for All have been rallying cries for a host of international development activities for more than a quarter century Where did these global goals come from Why have the health goals seemingly advanced so much faster than those in education In this book author Colette Chabbott explores the foundational role that international development organizations and the innovations they champion have played in shaping and advancing such goals Chabbott demonstrates the importance of science and measurement in rendering some innovations more universal and compelling than others Her analysis includes in depth case studies of innovations developed at the grassroots and scaled up at the national and international levels by the International Center for Diarrheal Disease Research and by BRAC once a Bangladeshi now a major international NGO These studies all suggest that greater investment in new types of education research based in the Third World but with strong ties to research centers of international scope in the First World are likely the prerequisites for achieving better cheaper faster universal education This important book will provoke scholars students and international development practitioners to think more deeply about the cultural and scientific underpinnings of education and international development The author s careful analyses are particularly needed as the international community defines new global goals for the post 2015 era

Book Features Introduces the key international organizations and movements in the field of education for development Provides a unique interpretation of the many tensions that characterize the field government vs non government organizations institutions vs actors and loose coupling between policies and action Addresses the current debate about research methods in education including quantitative indicators randomized controlled trials and case studies Identifies new activities and potential directions related to the global goals phenomenon This is that rare book one that is grounded in decades of policy experiences in the international development field yet is also theoretically motivated From the Foreword by Francisco O Ramirez Colette Chabbott brings years of development experience and exacting sociological analysis to challenge status quo understandings about the world development enterprise in this unique ambitious and important book

David P Baker professor of education and sociology Penn State University and author of *The Schooled Society* In a masterful review of more than 50 years of global interventions aimed at achieving Education and Health for All Chabbott utilizes the best in institutional theory and comparative analysis to provide a thought provoking account of the organizational and institutional dynamics that structure shape and limit our ability to achieve some of the world s most compelling goals

The Routledge Handbook of Disaster Response and Recovery Bimal Kanti Paul, Luke Juran, 2025-03-25 The Routledge Handbook of Disaster Response and Recovery covers the

two post disaster stages of the disaster cycle and presents an extensive and cutting edge overview of their many considerations. Organized into two parts: Response and Recovery, this handbook details the history, theories, methods, debates, and emerging issues in the stages of response and recovery. Using a transdisciplinary approach, the myriad topics examined in this handbook include search and rescue, myths related to disaster response, technological methods for response and recovery among vulnerable populations, and the intersection of disasters and mental health. Contributors discuss these issues both globally as well as country and disaster specific. This book is an essential guide and reference not only for scholars engaged in disaster research but also for undergraduate and graduate students, policy makers, disaster managers, international and supranational agencies, and humanitarian and volunteer organizations engaged in disaster management.

The Vortex
Scott Carney, Jason Miklian, 2022-03-29
LONGLISTED FOR THE CARNEGIE MEDAL FOR EXCELLENCE
AN AMERICAN LIBRARY ASSOCIATION NOTABLE BOOK IN NONFICTION

A tremendous new book. The Boston Globe: Carney and Miklian write vividly in the fashion of a cinematic disaster flick. The Washington Post: The deadliest storm in modern history ripped Pakistan in two and led the world to the brink of nuclear war when American and Soviet forces converged in the Bay of Bengal. In November 1970, a storm set a collision course with the most densely populated coastline on Earth. Over the course of just a few hours, the Great Bhola Cyclone would kill 500,000 people and begin a chain reaction of turmoil, genocide, and war. The Vortex is the dramatic story of how that storm sparked a country to revolution. Bhola made landfall during a fragile time when Pakistan was on the brink of a historic election. The fallout ignited a conflagration of political intrigue, corruption, violence, idealism, and bravery that played out in the lives of tens of millions of Bangladeshis. Authors Scott Carney and Jason Miklian take us deep into the story of the cyclone and its aftermath, told through the eyes of the men and women who lived through it, including the infamous president of Pakistan, General Yahya Khan, and his close friend Richard Nixon, American expats Jon and Candy Rhode, soccer star turned soldier Hafiz Uddin Ahmad, and a young Bengali revolutionary, Mohammed Hai. Thrillingly paced and written with incredible detail, The Vortex is not just a story about the painful birth of a new nation but also a universal tale of resilience and liberation in the face of climate emergency that affects every single person on the planet.
