Critical Discourse Analysis G. Weiss,R. Wodak,2007-10-18 Can discourse analysis techniques adequately deal with complex social phenomena What does interdisciplinarity mean for theory building and the practise of empirical research This original volume debates critical theory and discourse analysis focussing on the extent to which CDA can draw on a range of disciplines in the social sciences **A New Agenda in (critical) Discourse Analysis** Ruth Wodak,Paul Anthony Chilton,2005-01-01 Critical Discourse Analysis CDA has established itself over the past two decades as an area of academic activity in which scholars and students from many different disciplines are involved It is a field that draws on social theory and aspects of linguistics in order to understand and challenge the discourses of our day It is time for A New Agenda in the field The present book is essential for anyone working broadly in the field of discourse analysis in the social sciences The book includes often critical re assessments of CDA s assumptions and methods while proposing new route maps for innovation Practical analyses of major issues in discourse analysis are part of this agenda setting volume **Radicalism, Populism, Interventionism** Sergiu Miscoiu,2008-01-01 *The Routledge Handbook of Critical Discourse Studies* John Flowerdew,John E. The Oxford Handbook of Political Ideologies Michael Freeden, Lyman Tower Sargent, Marc Stears, 2013-08-15 This is the first comprehensive volume to offer a state of the art investigation both of the nature of political ideologies and of their main manifestations The diversity of ideology studies is represented by a mixture of the range of theories that illuminate the field combined with an appreciation of the changing complexity of concrete ideologies and the emergence of new ones Ideologies however are always with us The Handbook is divided into three sections The first is divided into three sections The first reflects some of the latest thinking about the development of ideology on an historical dimension from the standpoints of conceptual history Marx studies social science theory and history and leading schools of continental philosophy The second includes some of the most recent interpretations and theories of ideology all of which are sympathetic in their own ways to its exploration and close investigation even when judiciously critical of its social impact This section contains many of the more salient contemporary accounts of ideology The third focuses on the leading ideological families and traditions as well as on some of their cultural and geographical manifestations incorporating both historical and contemporary perspectives Each chapter is written by an expert in their field bringing the latest approaches and understandings to their task The Handbook will position the study of ideologies in the mainstream of political theory and political analysis and will attest to its indispensability both to courses on political theory and to scholars who wish to take their understanding of ideologies in new directions

Voices of Supporters Veronika Koller, Natalia Borza, Massimiliano Demata, Laura Filardo-Llamas, Anna W. Gustafsson, Susanne Kopf, Marlene Miglbauer, Valeria Reggi, Ljiljana Šarić, Charlotta Seiler Brylla, Maria Stopfner, 2023-09-15 This book addresses an under researched area within populism studies the discourse of supporters of populist parties Taking the 2019 European elections as their case study the authors analyse how supporters in eleven different countries construct identities and voting motivations on social media The individual chapters comprise a range of methods to investigate data from different social

media platforms defining populism as a political strategy and or practice realised in discourse that is based on a dichotomy between the people who are unified by their will and an out group whose actions are not in the interest of the people with a leader safeguarding the interests of the people against the out group The book identifies what motivates people to vote for populist parties what role national identities and values play in those motivations and how the social media postings of populist parties are recontextualised in supporters comments to serve as a voting motivation *International Investment Law and Globalization* Jean-Michel Marcoux, 2018-09-03 In a context of neoliberal globalization have the processes of elaboration and implementation of foreign investors responsibilities by intergovernmental organizations reached the realm of legality Using an analytical framework and a methodology that combines international law with international relations this book provides a twofold answer to this question First it demonstrates that the normative integration of foreign investors responsibilities in international investment law is fragmented and consistent with the interests of the most powerful actors Second while using the interactional theory of international law to assess the normative character of several international instruments elaborated and implemented by intergovernmental organizations it highlights the sense of obligation that each instrument generates The analysis demonstrates that such a codification process is marked by relations of power and has resulted in several social norms with relatively few legal norms **Qualitative Research Practice** Clive Seale, 2007 Aimed at the student reader this book demonstrates the benefits of using particular methods from the viewpoint of real life experience It contains chapters written by leading internationally distinguished qualitative researchers who recount and reflect on their own research experiences as well as others
