Dictionnaire Musique Theorique Historique Classic:

Classical and Romantic Performing Practice 1750-1900 Clive Brown, 2004-05-20 The past ten years have seen a rapidly growing interest in performing and recording Classical and Romantic music with period instruments yet the relationship of composers notation to performing practices during that period has received only sporadic attention from scholars and many aspects of composers intentions have remained uncertain Brown here identifies areas in which musical notation conveyed rather different messages to the musicians for whom it was written than it does to modern performers and seeks to look beyond the notation to understand how composers might have expected to hear their music realized in performance There is ample evidence to demonstrate that in many respects the sound worlds in which Mozart Beethoven Wagner and Brahms created their music were more radically different from ours than is generally assumed **Classical and Romantic**

Performing Practice Clive Brown, 2025-02-12 Drawing upon early recordings documentary evidence and the few surviving mechanical instruments author Clive Brown investigates how we might rediscover the subliminal messages Classical and Romantic music notation was intended to convey to performers and argues that composers intentions for their notation ought not to be confused with their expectations for its execution The revised and expanded second edition incorporates new information resulting from the author s continued research and practical experimentation since 1999 and his work with a succession of talented doctoral students The ^AOxford Handbook of Music and Medievalism Stephen C. Meyer, Kirsten Yri, 2020-03-02 The Oxford Handbook of Music and Medievalism brings together international scholars from a wide range of disciplines to provide a snapshot of the diverse ways in which medievalism the retrospective immersion in the images sounds narratives and ideologies of the European Middle Ages powerfully transforms many of the varied musical traditions of the last two centuries Chronology of Western Classical Music Charles J. Hall, 2002 This work is a complete chronology of classical music covering the musically fruitful period 1751 2000 Entries are arranged by year and contain a wealth of information **A Biographical Dictionary of Musicians** Theodore Baker, 1905 World Dictionaries in Print 1983, 1983
