Die Ambivalenz Guten Menschenrechte Internationalen:

International Solidarity in the Low Countries during the Twentieth Century Kim Christiaens, John Nieuwenhuys, Charel Roemer, 2020-10-12 During the 20th century a variety of social movements and civil society groups stepped into the arena of international politics This volume collects innovative research on international solidarity movements in Belgium and the Netherlands and places these movements prominently in debates about the history of globalization transnational activism and international politics

International Attention and the Protection of Human Rights Defenders Janika Spannagel, 2023-06-16 This book uses a practice driven and empirically founded approach to address the question of whether and how international attention can protect and enable domestic human rights activists in authoritarian settings It examines the untold origin story of the human rights defender term and its uptake among international advocacy organizations which coalesced with the rise of a theory of human rights change centered around the support for local actors Rich with analyses of original qualitative and quantitative data the author spells out this theory of change and tests its assumptions in two case studies the individual casework of the UN special procedures and the case of Tunisia under Ben Ali This book is of key interest to scholars and students of human rights of the United Nations and more broadly of international relations and politics in general and to practitioners working with human rights defenders at risk

The Making of International Human Rights Steven L. B. Jensen, 2016-02-09 This book fundamentally reinterprets the history of international human rights in the post 1945 era by documenting how pivotal the Global South was for their breakthrough In stark contrast to other contemporary human rights historians who have focused almost exclusively on the 1940s and the 1970s heavily privileging Western agency Steven L B Jensen convincingly argues that it was in the 1960s that universal human rights had their breakthrough This is a ground breaking work that places race and religion at the center of these developments and focuses on a core group of states who led the human rights breakthrough namely Jamaica Liberia Ghana and the Philippines They transformed the norms upon which the international community today is built Their efforts in the 1960s post colonial moment laid the foundation in profound and surprising ways for the so called human rights revolution in the 1970s when Western activists and states began to embrace human rights

The Battle for International Law Jochen von Bernstorff, Philipp Dann, 2019-10-22 This volume provides the first comprehensive analysis of international legal debates between 1955 and 1975 related to the formal decolonization process It is during this era couched between classic European imperialism and a new form of US led Western hegemony that fundamental legal debates took place over a new international legal order for a decolonised world The book argues that this era presents in essence a battle a battle that was fought out in particular over the premises and principles of international law by diplomats lawyers and scholars In a moment of relative weakness of European powers newly independent states and international lawyers from the South fundamentally challenged traditional Western perceptions of international legal structures engaging in fundamental controversies over a new international law

The legal outcomes of this battle have shaped the world we live in today Contributions from a global set of authors cover contemporary debates on concepts central to the time such as self determination sources and concessions non intervention wars of national liberation multinational corporations and the law of the sea They also discuss influential institutions such as the United Nations International Court of Justice and World Bank The volume also incorporates contemporary regional approaches to international law in the decolonization era and portraits of important scholars from the Global South

Global Social Democracy Bernd Rother,2022-06-01 This is first book in English dealing with the history of the Socialist International the international alliance of social democratic parties during the presidency of former German Chancellor Willy Brandt from 1976 1992 This book is based on thorough studies in numerous European and Latin American archives It tries to avoid a Eurocentric view giving equal importance to the Latin American and the European actors It takes a fresh look at party diplomacy a new kind of international diplomacy that was introduced by Willy Brandt in the field of international relations in the 1970s and 1980s This study brings new insights in European as well as Latin American history of this time It has a special focus on the role of Social Democrats European as well as Latin American in the civil wars in El Salvador and Nicaragua in the 1980s and on its repercussions on domestic policies in Germany Venezuela etc and on the relations of those countries with the U S government

Tuol Sleng Genocide Museum ,2024-04-22 Established in 1979 in the premises of the Khmer Rouge prison S 21 in Phnom Penh Tuol Sleng Genocide Museum TSGM has had a turbulent history mirroring Cambodia s social and political transformations The book brings together academics and practitioners from multiple fields who offer novel perspectives and sources on the site and reflect on the challenges the institution has faced in the past and will face in the twenty first century as an archive heritage and education site especially with the coming of the post justice era in the country

Poland's Solidarity Movement and the Global Politics of Human Rights Robert Brier,2021-06-10 Offers a fresh perspective on recent human rights history by reconstructing debates around dissent and human rights across four countries

The Human Rights Dictatorship Ned Richardson-Little,2020-04-23 Richardson Little exposes the forgotten history of human rights in the German Democratic Republic placing the history of the Cold War Eastern European dissidents and the revolutions of 1989 in a new light By demonstrating how even a communist dictatorship could imagine itself to be a champion of human rights this book challenges popular narratives on the fall of the Berlin Wall and illustrates how notions of human rights evolved in the Cold War as they were re imagined in East Germany by both dissidents and state officials Ultimately the fight for human rights in East Germany was part of a global battle in the post war era over competing conceptions of what human rights meant Nonetheless the collapse of dictatorship in East Germany did not end this conflict as citizens had to choose for themselves what kind of human rights would follow in its wake

Research Methods in Human Rights Bård A. Andreassen,Hans-Otto Sano,Siobhán McInerney-Lankford,2017-05-26 Methodological discussion has largely been neglected in human rights research with legal scholars in particular tending to address research methods and

methodological reflection implicitly rather than explicitly This book advances thinking on human rights methodology offering instruction and guidance on the methodological options for human rights research **The Conservative Human Rights Revolution** Marco Duranti, 2017 The Conservative Human Rights Revolution reconsiders the origins of the European human rights system arguing that its conservative inventors foremost among them Winston Churchill conceived of the European Convention on Human Rights ECHR as a means of realizing a controversial political agenda and advancing a Christian vision of European identity
