nements des années 1940 au début de la décennie 1990 **History as a Kind of Writing** Philippe Carrard, 2017-03-07 In academia the traditional role of the humanities is being questioned by the posts postmodernism poststructuralism and postfeminism which means that the project of writing history only grows more complex In History as a Kind of Writing scholar of French literature and culture Philippe Carrard speaks to this complexity by focusing the lens on the current state of French historiography Carrard's work here is expansive examining the conventions historians draw on to produce their texts and casting light on views put forward by literary theorists theorists of history and historians themselves Ranging from discussions of lengthy dissertations on 1960s social and economic history to a more contemporary focus on events actors memory and culture the book digs deep into the how of history How do historians arrange their data into narratives What strategies do they employ to justify the validity of their descriptions Are actors given their own voice Along the way Carrard also readdresses questions fundamental to the field including its necessary membership in the narrative genre the presumed objectivity of historiographic writing and the place of history as a science distinct from the natural and theoretical sciences

Workers of the Empire, Unite Yann Béliard, Neville Kirk, 2021-03-01 In most studies of British decolonisation the world of labour is neglected the key roles being allocated to metropolitan statesmen and native elites Instead this volume focuses on the role played by working people their experiences initiatives and organisations in the dissolution of the British Empire both in the metropole and in the colonies How central was the intervention of the metropolitan Left in the liquidation of the British Empire Were labour mobilisations in the colonies only stepping stones for bourgeois nationalists To what extent were British labour activists willing and able to form connections with colonial workers and vice versa Here are some of the complex questions on which this volume sheds new light Though convergences were fragile and temporary this book

recapture the sense of uncertainty that accompanied the final decades of the British Empire a period when radical minorities hoped that coordinated efforts across borders might lead not only to the destruction of the British Empire but to that of capitalism and imperialism in general Exploiting rare primary sources and adopting a resolutely transnational approach our collection makes an original contribution to both labour history and imperial studies **Analysing Historical**

Mathematics Textbooks Gert Schubring,2023-01-04 This book is about the creation and production of textbooks for learning and teaching mathematics It covers a period from Antiquity to Modern Times The analysis begins by assessing principal cultures with a practice of mathematics The tension between the role of the teacher and his oral mode on the one hand and the use of a written printed text in their respective relation with the student is one of the dimensions of the comparative analysis conceived of as the textbook triangle The changes in this tension with the introduction of the printing press are discussed The book presents various national case studies France Germany Italy as well as analyses of the internationalisation of textbooks via transmission processes As this topic has not been sufficiently explored in the literature it will be very well received by scholars of mathematics education mathematics teacher educators and anyone with an interest in the field La géopolitique en fiches et en schémas Brice Rabot,2022-02-01 La géopolitique suscite régulièrement l'intérêt et la curiosité du grand public sans qu'il soit toujours facile de la définir Vritable science humaine la géopolitique a parfois été instrumentalisée par certains régimes dans la première moitié du XXe siècle ce qui a profondément marqué les approches et conduit prendre certaines distances Depuis les années 1970-1980 la géopolitique a connu de profonds renouvellements qui ont conduit multiplier les champs d'étude et utiliser de nouveaux outils d'analyse empruntés aux autres sciences humaines pour mieux comprendre les situations de rivalités et les stratégies des différents acteurs toutes les échelles Cet ouvrage cherche à dresser en une centaine de fiches un panorama de la géopolitique aujourd'hui représentatif et le plus accessible possible à un large lectorat étudiants ou grand public Pour ce faire chaque fiche est organisée autour des éléments clés à retenir afin de comprendre les grandes logiques et les principales oppositions l'ouvrage est suivi de focus qui permettent d'approfondir certains aspects ou acteurs Ces focus peuvent à la fois servir d'angles d'entrée dans le thème ou de compléments pour illustrer des dissertations ou des études de cas plus poussées Chaque fiche se conclut par un schéma bilan qui permet de mettre en exergue les enjeux indispensables pour comprendre les situations différentes échelles Un va-et-vient entre les fiches est tout à fait possible et facilité par l'organisation thématique de l'ouvrage **Stéréotypes et clichés - 4e éd.** Ruth Amossy,Anne Herschberg Pierrot,2021-06-09 Les notions de stéréotype cliché poncif lieu commun idéologie permettent d'étudier les interactions sociales la relation des discours aux imaginaires sociaux et plus largement le rapport entre langage et société Pourquoi la question des évidences partagées des représentations collectives des automatismes de langage se trouve-t-elle au centre des réflexions contemporaines Dans quelle mesure les perspectives d'analyse des sciences sociales des études littéraires et des sciences du langage peuvent-elles se recouper Après avoir établi l'histoire des notions le présent ouvrage montre

comment le phénomène de la stéréotypie a été abordé par différentes disciplines : psychologie sociale, stylistique, sociocritique et théories de la lecture, sémantique rhétorique et analyse du discours. Cette nouvelle édition a été entièrement mise à jour et enrichie de nombreuses notions telles que le pré-discours, la formule ou l'analyse du discours politique et médiatique.
