CENTURY Ruben Ygua,2025-04-08 THE FAILURE OF THE BALANCE POWER THEORY The French Revolution and the Napoleonic Wars had spread the concept of democracy throughout most of the European continent thus spreading the idea that populations sharing an ethnic origin a language and the same political ideals had the right to form independent states However the principle of national self determination was totally ignored by the dynastic and reactionary forces that decided the fate of European affairs at the Congress of Vienna in 1815 Many of the peoples who wanted their autonomy were subjected to local dynasties or other nations For example the German states integrated into the German Confederation were divided into numerous ducats principalities and kingdoms according to the terms of the Vienna Congress Italy was also

divided into several political units some of which were under foreign control the Flemish and French Belgians of the Austrian Netherlands were subordinated to Dutch rule by decision of Congress The revolutions and strong nationalist movements of the 19th century succeeded in annulling much of the reactionary impositions agreed in Vienna Belgium gained independence from the Netherlands in 1830 the unification of Italy was completed in 1861 and that of Germany in 1871 However nationalist conflicts remained unresolved in other areas of Europe at the beginning of the 20th century causing tensions within the regions involved and between various European nations One of the most important nationalist currents Pan Slavism played a fundamental role in the events that preceded the war The nationalist spirit was also evident in the economic field The Industrial Revolution which began in Great Britain at the end of the 18th century in France at the beginning of the 19th century and in Germany from 1870 onwards led to a large increase in manufactured goods forcing these countries to seek new markets abroad The area in which the European policy of economic expansion was mainly developed was Africa where the respective colonial interests frequently came into conflict The economic rivalry over the dominance of African territory between France Germany and Great Britain was on the verge from 1898 to 1914 of provoking a war in Europe on several occasions As a result of international tensions European nations took both domestic and foreign policy measures between 1871 and 1914 that in turn increased the danger of conflict maintained numerous permanent armies which they constantly expanded through peacetime recruitments and built larger ships Great Britain influenced by the development of the German Navy which began in 1900 and by the course of the Russo Japanese War modernized its fleet under the direction of Admiral Sir John Fisher The war between Russia and Japan had demonstrated the effectiveness of long range naval armament Advances in other areas of military technology and organization stimulated the formation of staffs capable of drawing up very precise mobilization and attack plans often integrated into programs that could not be cancelled once initiated Leaders in all countries became aware that rising expenditures on armaments would eventually lead to national bankruptcies or war for this reason attempts were made to promote global disarmament on several occasions notably at the Hague Conferences of 1899 and 1907 However international rivalry had reached such a point that no effective agreement could be reached to decide on international disarmament

Rosewood: the Early Years William Garrett,2011-08-09 From the day its grand foundation was laid Rosewood Plantation was special A cotton producing farm it seems to be just like neighboring plantations on the surfacebut it has a secret to protect It is a place of swelling adventure filled with brave gentlemen beautiful Southern belles and a visitor from beyond The residents of Lindbergh Tennessee consider the plantation to be home to more than just memories and history and most have a chilling story to share about Rosewood Over the years the plantation has known many owners each one leaving his mark on the place Each new generation has a new story to learn and to create and each new person who lives there has a new experience But throughout it all the plantation itself endures and this is its story Rosewood itself has its own

personality and contribution to its own tale and is in many ways its own character and story to tell How much influence can a structure have on its story its history and its future For one owner at least the house has more power than might seem possible Every owner had his own dreams for the place and the people who lived there but William Clairbourne stood apart in his ambition Had he succeeded in his plans for Rosewood it very well could have changed the outcome of the Civil War
