## **Catalyst Jim Martin And The Rise Of North Carolina Republicans:**

*Catalyst* John McDonald Hood, 2015 In 1985 newly elected North Carolina governor Jim Martin met with Tennessee governor Lamar Alexander U S House Speaker Newt Gingrich and six other Republican leaders to map out a strategy for making the GOP competitive in state and local elections particularly in the South That the strategy this group developed has succeeded shows Martin s under appreciated role as a catalyst for political change in North Carolina and beyond This book chronicles the life and political career of Martin North Carolina s first two term Republican governor Before his election to that job in 1984 Martin served 12 years in Congress and six years on the Mecklenburg County Commission He began his professional career as a professor of chemistry at Davidson College During his long political career Martin often led the way in showing his fellow Republicans that political pragmatism could work hand in hand with fiscal conservatism Along the way his career has intersected with such notable figures as Richard Nixon Jesse Helms Jim Hunt Ralph Nader Ronald Reagan and Elizabeth Dole In *Catalyst* we follow Martin from his days in the 1960s as chairman of the first Republican majority commission in North Carolina s most populous county to his 2012 role in investigating scandals at the University of North Carolina

*Anatomy of a Purple State* Christopher A. Cooper, 2024-10-09 North Carolina represents a perfect distillation of the promise and peril of modern American democracy hyperpartisanship gerrymandering dissatisfaction with the two party system the urban rural divide these issues are all brought into sharp relief in the Tar Heel State For that reason North Carolina politics and government are increasingly of interest not just to North Carolina citizens but to journalists political observers and people across the country Political scientist Christopher A Cooper to whom the national media go when they need a quote about North Carolina politics offers a primer made for all people no matter their political leanings Readers will be introduced to everything that has made North Carolina the most purple of purple states from the state constitution and the influence of think tanks to the growing racial diversity of the state and the limitations on the governor s power By explaining how we came to be in the political situation we are in Cooper shows us where we might go next And as many have said As North Carolina goes so goes the nation

*Revelation Through Science* James G. Martin, 2020-11-26 *Revelation through Science* is written for the educated non scientist who may be troubled by apparent conflicts between science and religion Are science and faith incompatible Astronomers physicists and biologists have now shown that the more deeply science probes nature the more it reveals evidence pointing us to God After reviewing concepts from those fields *Revelation through Science* adds new material from chemistry It describes organic structures that are profoundly vital for life yet too complex for self assembly without some guiding principle It should lift the burden from believers and seekers to realize that science is not the enemy of faith

*Central Prison* Gregory S. Taylor, 2021-04-07 Gregory S Taylor s *Central Prison* is the first scholarly study to explore the prison s entire history from its origins in the 1870s to its status in the first decades of the twenty first century Taylor addresses numerous features of the state s vast prison system including chain gangs convict

leasing executions and the nearby Women s Prison to describe better the vagaries of living behind bars in the state s largest penitentiary He incorporates vital elements of the state s history into his analysis to draw clear parallels between the changes occurring in free society and those affecting Central Prison Throughout Taylor illustrates that the prison like the state itself struggled with issues of race gender sectionalism political infighting finances and progressive reform Finally Taylor also explores the evolution of penal reform focusing on the politicians who set prison policy the officials who administered it and the untold number of African American inmates who endured incarceration in a state notorious for racial strife and injustice Central Prison approaches the development of the penal system in North Carolina from a myriad of perspectives offering a range of insights into the workings of the state penitentiary It will appeal not only to scholars of criminal justice but also to historians searching for new ways to understand the history of the Tar Heel State and general readers wanting to know more about one of North Carolina s most influential and infamous institutions

### **Leadership**

James H. Dulebohn, Brian Murray, Dianna L. Stone, 2022-01-01 As we enter the third decade of the twenty first century we are seeing a renaissance of context in influencing leadership leader follower relations and leader effectiveness as well as a recognition of the tripartite nature of leadership To fully understand and appreciate leadership one must see the multiple parts of it as well as the connections among them Leadership is multi dimensional leadership depends on leaders followers and context Leadership research in the past three decades has been dominated by interest in neo charismatic leadership styles and a focus on leadermember exchange in leader follower relationships Recently other approaches to leadership such as ethical and authentic leaders have garnered greater attention in response to the moral and ethical challenges in the workplace Additionally established approaches to leadership emergence and development have been challenged by their relevance to diverse work forces and issues of inclusion This twelve article volume includes an outstanding roster of established and emerging leadership authors who tackle questions of leadership at the intersections of leaders followers and context The volume opens with two articles that set the stage for the current state of leadership research and paths for its future including a commentary by Edwin Locke and Gary Latham on current management research practices and an action oriented review of leadership research from the start of the 21st century The volume is organized around three themes leadership and diversity leader follower relationships and systems of leader follower and context Articles in the volume advance diversity research with an integration of leadership and diversity theories that demonstrate the former s need for re examination in light of the latter a systematic development of inclusive leadership theory and a close examination of immigrant ethnic identity The authors of several articles expand our understanding of leader follower relationships in the context of teams and alliances the contextual boundaries of authentic leadership theory and the authentic leader s potential impact on harassment in organizations The volume culminates with three demonstrations of leadership as systems of leader follower context interaction including a close examination of the toxic triangle s manifestation in university scandals a micro

process model of power and leadership and a configurational approach to studying leadership The volume is designed primarily for scholars in the fields of human resource management organizational behavior and leadership It also well serves the needs of instructors and students in master s and doctoral courses in leadership or organizational behavior Each article is grounded in managerial context that will appeal to practitioners in the field [The Hamlet Fire](#) Bryant Simon,2017-09-05 Captivating and brilliantly conceived The Hamlet Fire will provide readers with insights into our current national politics The Washington Post A gifted writer Chicago Tribune uses a long forgotten factory fire in small town North Carolina to show how cut rate food and labor have become the new American norm For decades the small quiet town of Hamlet North Carolina thrived thanks to the railroad But by the 1970s it had become a postindustrial backwater a magnet for businesses searching for cheap labor with little or almost no official oversight One of these businesses was Imperial Food Products The company paid its workers a dollar above the minimum wage to stand in pools of freezing water for hours on end scraping gobs of fat off frozen chicken breasts before they got dipped in batter and fried into golden brown nuggets and tenders If a worker complained about the heat or the cold or missed a shift to take care of their children or went to the bathroom too often they were fired But they kept coming back to work because Hamlet was a place where jobs were scarce Then on the morning of September 3 1991 the day after Labor Day this factory that had never been inspected burst into flame Twenty five people many of whom were black women with children living on their own perished that day behind the plant s locked and bolted doors Eighty years after the Triangle Shirtwaist Fire industrial disasters were supposed to have been a thing of the past After spending several years talking to local residents state officials and survivors of the fire award winning historian Bryant Simon has written a vivid potent and disturbing social autopsy of this town this factory and this time that shows how cheap labor cheap government and cheap food came together in a way that was bound for tragedy **Addresses and Public Papers of James Grubbs Martin, Governor of North Carolina: 1985-1989** James Grubbs Martin,1992 **Jim Gardner, a Question of Character** Grady Jefferys,Charles Heatherly,1992 **The Economist** ,1992 **Congressional Record** United States.
