

War-communism summarized:

1. Nationalisation of production and transports.
2. Abolishments of private trade, replaced by a state controlled distribution system. Ideologically motivated. People were divided in categories on their rationing cards; industrial workers were the most valued category.
3. Abolishment of the monetary system and introduction of state controlled exchange system. The value of money should be reduced by a deliberately created inflation.
4. Introduction of one single economic plan.
5. Introduction of obligatory work for all adult men, and partly for women and children.

Security Ulrich Becker, 2010 Social security systems are experiencing a profound change all over Europe due to internal as well as to external reasons such as changes in society in the labor markets and globalization The normative dimension of these changes is often overlooked This book takes the first step in filling the gap concentrating on security as a general principle of European social security law GPSoc explaining what this principle means and how it works The book reflects the way in which legal comparison can be used to gain a better understanding of social security law It brings together detailed reports from 14 European countries and analyzes the effects of security on legislative as well as on administrative action It not only provides detailed information about the institutions and the instruments through which social security works in practice but also offers a better understanding of its normative basis This basis is fundamental It explains the role which social security plays in modern societies since it is after all a core element of the Nation State which holds these societies together in times in which they can no longer be based on religion or social class Abolishing Performance Appraisals Tom Coens, Mary Jenkins, 2002-10-12 The authors separate the five discrete functions of appraisal coaching feedback compensation employee development and legal documentation and clarify the objectives of each They examine the atrocious track record of appraisals *Key Documents on the Reform of the UN Security Council 1991-2019* Bardo Fassbender, 2020-10-12 Key Documents on the Reform of the UN Security Council 1991 2019 brings together primary source documents reflecting the political legal and academic discussions of the United Nations Security Council reform in particular the Council's membership and decision making as they have taken place since 1991 Earlier discussions from the late 1940s through 1991 are covered insofar as they offer a useful contribution to the current debate This extensive collection curated by a leading authority is intended to be representative of the debate as a whole without bias faithfully reflecting the positions of various stakeholders global participants and civil society This important work will be an indispensable resource for researchers and students bringing together hundreds of documents produced during more than three decades by governments UN bodies universities think tanks and individual authors in a single comprehensive volume *Abolishing Performance Appraisals* Tom Coens and Mary Jenkins, Jenkins Mary, Coens Tom, 2010-05-07 Performance appraisals are used in the overwhelming majority of workplaces Yet most organizations that use appraisal and a similar percentage of givers and receivers of appraisal are dissatisfied with the process Many are beginning to deeply question whether appraisal is necessary and consistent with the work culture espoused by progressive organizations Abolishing Performance Appraisals provides an insightful well documented look at the flaws of appraisal including its destructive unintended effects and offers practical guidance to organizations that want to move on to more progressive approaches to coaching feedback development and compensation While many books prescribe cures for appraisal this is the first to focus exclusively on eliminating appraisal altogether and creating alternative non appraisal approaches based upon progressive and healthier assumptions about

people The authors expose and dispel the widely accepted myths and false assumptions that underlie common management strategies surrounding the five key functions of appraisal coaching feedback development compensation and legal documentation They then offer step by step practical guidance on implementing alternative non appraisal strategies that deliver the objectives of each function And they suggest ways to give supervisors and managers the freedom to choose for themselves the most effective ways of working with people Filled with real life examples resources tools and detailed practical advice *Abolishing Performance Appraisals* is an entirely fresh and radically different view of performance appraisal and its functions that will help people start over and discover new and more effective approaches ***Abolishing Poverty*** Victoria Lawson, Sarah Elwood, Michelle Daigle, Ana Gutiérrez Garza, Juan Herrera, Ellen Kohl, Jovan Lewis, Aaron Mallory, Priscilla McCutcheon, Yolanda González Mendoza, Margaret Marietta Ramírez, Chandan Reddy, 2023-08-01 *Abolishing Poverty* argues for a project of relationality that refuses the whiteness of liberal poverty studies and instead centers critiques of the poverty relation and political futures disavowed under liberal governance In disrupting poverty thinking the author collective opens space for diverse frameworks for understanding impoverishment and articulating antiracist knowledges and political visions The book explores new infrastructures of possibilities and political solidarities rooted in accountable relations to each other and from flights to the future that animate diverse communities This book is boundary and genre crossing with broad appeal to scholars of such disciplines as human geography ethnic studies decolonial theory and feminist studies As a volume the work is unique in its primary field of human geography in the form of its making its collective authorship and its investigation of politics that abolish poverty thinking and engage in activism against the poverty relation produced through settler colonialism heteropatriarchy white supremacy and capitalist exploitation ***Abolishing Freedom*** Frank Ruda, 2016-05-01 Pushing back against the contemporary myth that freedom from oppression is freedom of choice Frank Ruda resuscitates a fundamental lesson from the history of philosophical rationalism a proper concept of freedom can arise only from a defense of absolute necessity utter determinism and predestination *Abolishing Freedom* demonstrates how the greatest philosophers of the rationalist tradition and even their theological predecessors Luther Descartes Kant Hegel Freud defended not only freedom but also predestination and divine providence By systematically investigating this mostly overlooked and seemingly paradoxical fact Ruda demonstrates how real freedom conceptually presupposes the assumption that the worst has always already happened in short fatalism In this brisk and witty interrogation of freedom Ruda argues that only rationalist fatalism can cure the contemporary sickness whose paradoxical name today is freedom ***The Abolition Lectionary*** Hannah Bowman, Wesley Spears-Newsome, Guillermo Arboleda, 2025-07-23 The Biblical message of liberation to captives around the entire liturgical year What does the Bible say about prisons and justice The *Abolition Lectionary* is a devotional and preaching aid that presents the many resonances between Christian theology and prison abolition Following the three year cycle of the Revised Common Lectionary each essay addresses one text for each Sunday

The variety of texts present a breadth of interpretive perspectives that show the connections between the biblical narrative of liberation and the modern day prison abolition movement. The movement of the lectionary across the seasons of the church year grounds the promise of liberation in the everyday practices of Christian life. The Abolition Lectionary grew out of a blog series of the same name on the website of Christians for the Abolition of Prisons that ran from 2020-2023. With contributors from many different Christian traditions, it offers an ecumenical, scriptural, liturgical, ethical, radical, and accessible entry point to learning about abolition. For Christians interested in personal devotional reading or for preachers and clergy looking to bring urgent concerns about prisons, policing, and restorative and transformative justice into their lectionary preaching, The Abolition Lectionary finds abolitionist perspectives across the scope of the biblical story.

The Abolition of Sex Kara Dansky, 2021-11-11. Most Americans do not understand the real threat that the transgender agenda or the so-called gender identity movement poses to all of us, especially women and girls, nor do they understand the extent to which it is taking over U.S. law and civil society. The simple truth is that gender identity functions to abolish sex and all of our civic institutions—government, media, academia, and business—have been completely captured by it. We have been told that transgender is a word to describe a marginalized group of people who are in need of civil rights protection; it is not. Instead, it is an incoherent word that is being used to advance a much broader agenda. There are many people, including people on the political left, who understand the threat that enshrining gender identity in law and society poses, but they are silenced when they try to speak out. This book shines a light on the truth about gender identity, the transgender agenda, the very real threats that they pose to all of society, specifically to the rights, privacy, and safety of women and girls, and what the global Women's Human Rights Campaign is doing to fight back.

Men of the World Jeff Hearn, 2015-07-14. Men of the World will be seized upon by academics and activists facing up to the persistence, proliferation, and transnationalization of patriarchies. Cynthia Cockburn, City University London and University of Warwick. This is an important, thought-provoking, and incredibly timely book from one of the leading scholars in the field of men and masculinities. I cannot praise this wonderful book highly enough. Richard Collier, Newcastle University. In this lively and engaging new book, Hearn looks back over nearly 40 years in feminist-framed studies of men and masculinities and also forward to the futuristic scenarios through which gender power is currently evolving in transpatriarchal contexts. Terrell Carver, University of Bristol. What have men and globalization got to do with each other? How are men shaping and being shaped by globalization? How is globalization gendered? Why do many books on globalization fail to discuss gender relations? And why do many of those that do omit an explicit and developed analysis of men and gender relations? Men of the World brings together autobiographical reflections and memories on changing personal locations, contemporary empirical studies on major power processes, and up-to-date theoretical development. It considers the implications of debates on globalization for analyzing men and the implications of debates on men and masculinities for globalization, transnational change, and

transnational patriarchies as part of engagement and critique focused on the global North Specific chapters address diverse transnational issues transnational bodies and emotions in violence violation and militarism transnational organizing across states big business global finance and activism transnational movements in the environment migration and information and communication technologies and sexualities and finally challenges to the gender category of men An essential read for students and researchers of gender sexuality masculinity intersectionality and globalization across the social sciences Jeff Hearn is Guest Faculty Research Professor Gender Studies rebro University Sweden Professor of Management and Organization Hanken School of Economics Finland Professor of Sociology University of Huddersfield UK
