Posters Elizabeth E. Guffey, 2014-10-15 From band posters stapled to telephone poles to the advertisements hanging at bus shelters to the inspirational prints that adorn office walls posters surround us everywhere but do we know how they began Telling the story of this ephemeral art form Elizabeth E Guffey reexamines the poster's roots in the nineteenth century and explores the relevance they still possess in the age of digital media Even in our world of social media and electronic devices she argues few forms of graphic design can rival posters for sheer spatial presence and they provide new opportunities to communicate across public spaces in cities around the globe Guffey charts the rise of the poster from the revolutionary lithographs that papered nineteenth century London and Paris to twentieth century works of propaganda advertising pop culture and protest Examining contemporary examples she discusses Palestinian martyr posters and West African posters that describe voodoo activities or Internet con men stopping along the way to uncover a rich variety of posters from the Soviet Union China the United States and more Featuring 150 stunning images this illuminating book delivers a fresh look at the poster and offers revealing insights into the designs and practices of our twenty first century world

Porque Estamos Aquí Jessica Nydia Pabón-Colón, 2025-11-11 A future classic collection of Puerto Rican feminist writing that spans time terrain and phases invokes voices across generations and fields and bridges island and diaspora In her years of scholarship and activism with fellow Puerto Rican feminists editor Jessica N Pabón Colón reached for a feminism to ground her work and validate the women who paved her way but in her search for a specific tradition of Puerto Rican feminism what she found were gaps disappearances and unanswered questions Despite the presence of Puerto Ricans in US pop culture and the long history of Boricua resistance to US subjugation both on the archipelago and in the diaspora she did not find a feminist lens to link the myriad identities and geographies of Ricanness or to focus critique on Puerto Rico's status as an American neo colony Counteracting such erasure *Porque Estamos Aquí* maps Boricua feminisms of the past the present and the future defining what it means to be a bad subject of US empire Engaging in radical collectivity Pabón Colón joins forces with Puerto Rican scholars memoirists artists and activists including feminist legends like Aurora Levins Morales and political trailblazers like Rosa Clemente to ground this anthology in a tradition of resistance to empire at home Through

essays roundtables historiographies poems and other cross genre writing Porque Estamos Aqu asserts that Puerto Rican feminists are undeniably irreducibly here and will guide generations of our shared movement for years to come **Queer**

Throughlines Ju Hui Judy Han, 2025-10-01 Queer Throughlines draws on years of direct participation interviews and ethnography to examine transnational Korean LGBTQ activism since the 1990s Han maps the sites and routes of leftist and queer political movements highlighting challenges posed by Christian conservatives in both South Korea and the United States The book uses the concept of throughlines to weave together a web of movement stories across time and space a coalition of Los Angeles based LGBTQ activists and allies fighting an anti gay petition campaign led by Korean immigrant churches queer activists involved in anti war protests in Seoul progressive clergy embracing inclusivity and risking heresy charges and excommunication and queer and trans activists refusing to be sidelined from visions of political change underway These moments do not always line up in a straightforward narrative of victory or progress yet they create powerful lines of solidarity community and kinship Feltness

Stephanie Springgay, 2022-09-23 Stephanie Springgay s concept of feltness which emerges from affect theory queer and feminist theory and feminist conceptions of more than human entanglements is a set of intimate practices of creating art based on touch affect relationality love and responsibility In this book she explores how feltness is a radical pedagogy that can be practiced with diverse publics including children who are often left out of conversations about who can learn in radical ways Springgay examines the results of a decade long project in which researchers artists students and teachers participated in events in North American elementary secondary and postsecondary institutions In projects that ranged from children learning to be critics and artists to university students experimenting with building a public through art participants blended participatory art creation with academic research to address social justice issues Springgay shows how feltness can redefine who is imagined to be capable of complex feeling experiential learning embodied practice social engagement and intimate care In this way feltness fosters learning that disrupts and defamiliarizes schools and institutions knowledge systems values and the legibility of art and research Art

and Social Justice Education Therese M. Quinn, John Ploof, Lisa J. Hochtritt, 2012-04-23 This imaginative practical and engaging sourcebook offers inspiration and tools to craft critical meaningful transformative arts education curriculum and arts integration grounded within a clear social justice framework and linked to ideas about culture as commons Paths

toward Utopia Cindy Milstein, 2012-10-05 Consisting of ten collaborative picture essays that weave Cindy Milstein s poetic words within Erik Ruin s intricate yet bold paper cut and scratch board images Paths toward Utopia suggests some of the here and now practices that prefigure however imperfectly the self organization that would be commonplace in an egalitarian society The book mines what we do in our daily lives for the already existent gems of a freer future premised on anarchistic ethics like cooperation and direct democracy Its pages depict everything from seemingly ordinary activities like using parks as our commons to grandiose occupations of public space that construct do it ourselves communities if only temporarily

including pieces such as *The Gift* *Borrowing from the Library* *Solidarity Is a Pizza* and *Waking to Revolution* The aim is to supply hints of what it routinely would be like to live every day in a world created from below where coercion and hierarchy are largely vestiges of the past *Paths toward Utopia* is not a rosy eyed stroll though The book retains the tensions in present day attempts to model horizontal institutions and relationships of mutual aid under increasingly vertical exploitative and alienated conditions It tries to walk the line between potholes and potential Yet if anarchist and other autonomist efforts are to serve as a clarion call to action they must illuminate how people qualitatively consensually and ecologically shape their needs as well as desires They must offer stepping stones toward emancipation This can only happen through experimentation by us all with diverse forms of self determination and self governance even if riddled with contradictions in this contemporary moment As the title piece to this book steadfastly asserts The precarious passage itself is our road map to a liberatory society
