Celestes Garden Delights Discover The Many Ways A Garden Can Nurture You:

Celeste's Garden Delights Celeste Longacre, 2015-03-02 You've heard it: You are what you eat. The evidence is mounting that what you put into your mouth matters. What better way is there to know exactly what you are eating than to grow some of your own food or get to know your farmer? Celeste has decades of experience providing good nutritious food for her family. You can do it. Celeste's Garden Delights will show you how to grow, can ferment, freeze, dry, and root cellar fresh produce. If you can't do it all, just do what you can. Start small. Even if you live in an apartment, you can grow a tomato plant or two in pots on the balcony or patio. Or you can take a few hours in the summer to buy and prepare berries or corn for your freezer. If you have a lawn and would like to make part of it into a garden, the section on No Till Gardening will tell you how. Thinking about keeping chickens? Read the section on Backyard Chickens to see if it's something you truly want to do. Food is usually less expensive when it is in season. Get together with some friends to take advantage of bulk buying. Farmers generally give you good discounts if you buy large quantities or seconds food with a few bruises. You can do it. There's no better feeling than having an actual relationship with your food. Homegrown and homemade or locally grown and made are truly the best.

This charming book of lovely tales is about the magic of self discovery, memory, and human connections transmitted through botany. The stories are supplemented with simple plant propagation how-tos for the plants that connect to the memories. Start a rosebush from the rose in your wedding bouquet, remember Grandma's hollyhock from a cutting of the plant by her clothesline, enjoy onions in your garden descending from a gift of an onion at a B & B where you spent a week on a romantic holiday, or plant a balsam fir at the end of the driveway to remind you of Christmas. Johanna Buchert Smith has worked as an editor for several years, both online and in print. She shares her family's love of gardening and has extensive experience with foraging. She lives in Salt Lake City, Utah. Ellen Sheppard Buchert obtained her bachelor's degree for Integrated Studies in botany and writing. Her art has been shown all over the state of Utah and in Ontario, Canada. She has illustrated three previous gardening books for Gibbs Smith: 75 Exceptional Herbs, 75 Remarkable Fruits, and 75 Exciting Vegetables. She lives in Provo, Utah.
