Mitosis Facts and Questions M. Little, 1977-11 Two years ago about twenty people gathered informally in our institute to discuss mitosis We took this opportunity to try to separate the hard facts of mitosis which are accepted by most people from the soft ones which are still open for discussion Surprisingly few hard facts survived with their reputation still intact This result led us to organize a similar meeting on a larger scale The outcome was the workshop Mitosis Facts and Questions

which was held at the German Cancer Research Center in Heidelberg from April 25-29, 1977. An introductory lecture was given for each of nine major topics followed by an extensive discussion of facts, questions, and future experiments. Further details were provided by posters. The proceedings of the meeting are published in this volume. We feel that many open questions and facts described here will provide stimulating ideas and a basis for further investigation of this fundamental process. The success of the workshop would not have been possible without the help of many people. We are very grateful to the German Cancer Research Center for its interest and assistance and for the support of the Verein zur Forderung der Krebsforschung in Deutschland represented by Prof. Dr. h. c. K. H. Bauer, the ECBO (European Cell Biology Organization) and the Deutsche Gesellschaft für Zellbiologie. Our sincere thanks are also extended to our students and technicians for their enthusiastic help and to Mrs. Joa for typing the manuscripts. Mitosis Mitsuhiro Yanagida, Anthony A.
