- **Reading Time:** 10-15 minutes.
- **Purpose:** Provide a brief overview of a topic. Students will be able to use this overview to gain a general understanding of the topic and to identify the main concepts that are covered in the text.
- **How To Think:** Before reading, ask the students to think about the topic and to write down a few questions that they want to answer. After reading, ask the students to think about the questions that they wrote down and to see if they can answer them.
- **Questions:** Ask the students to write down a few questions that they have about the topic. Then, ask the students to write down a few answers to these questions.

[illegible]

- **Reading Time:** 100-120 minutes.
- **Purpose:** Students analyze the First Reader text (prior to going to their mathematics). Students build key reading skills that will help them better understand this specific text and can be applied to general reading beyond the assignment.
- **How to Use:** This skill is introduced in a video, modeled by the tutor, and then students are given the opportunity to practice it. Students answer 1 question in the New York section. I generally will give students 1-2 minutes to answer these questions, review it, and allow them to correct errors on before submitting.
- **Directions:** Students watch the video of a total of 2 weeks, based on student progress on the New York section.

English Language Arts, Grade 6 Module 1 PCG Education,2015-10-01 Paths to College and Career Jossey Bass and

PCG Education are proud to bring the Paths to College and Career English Language Arts ELA curriculum and professional development resources for grades 6-12 to educators across the country. Originally developed for EngageNY and written with a focus on the shifts in instructional practice and student experiences the standards require, Paths to College and Career includes daily lesson plans, guiding questions, recommended texts, scaffolding strategies, and other classroom resources. Paths to College and Career is a concrete and practical ELA instructional program that engages students with compelling and complex texts. At each grade level, Paths to College and Career delivers a yearlong curriculum that develops all students' ability to read closely and engage in text-based discussions, build evidence-based claims and arguments, conduct research, and write from sources and expand their academic vocabulary. Paths to College and Career's instructional resources address the needs of all learners, including students with disabilities, English language learners, and gifted and talented students. This enhanced curriculum provides teachers with freshly designed Teacher Guides that make the curriculum more accessible and flexible, a Teacher Resource Book for each module that includes all of the materials educators need to manage instruction, and Student Journals that give students learning tools for each module and a single place to organize and document their learning. As the creators of the Paths ELA curriculum for grades 6-12, PCG Education provides a professional learning program that ensures the success of the curriculum. The program includes Nationally recognized professional development from an organization that has been immersed in the new standards since their inception, blended learning experiences for teachers and leaders that enrich and extend the learning, a train-the-trainer program that builds capacity and provides resources and individual support for embedded leaders and coaches. Paths offers schools and districts a unique approach to ensuring college and career readiness for all students, providing state-of-the-art curriculum and state-of-the-art implementation.

Prioritizing the Common Core Larry Ainsworth, 2013. The consensus among educators nationwide is that in-depth instruction paired with focused assessment of essential concepts and skills are far more effective than superficially covering every concept and skill in the standards. Educators are faced with the task of teaching all standards while meeting the extraordinary range of student learning needs. Prioritizing the Common Core offers common sense solutions to the dilemmas teachers face today in implementing the new, more rigorous national standards. Chapters present a rationale for prioritizing the Common Core, a step-by-step process for prioritizing standards in language arts and mathematics, strategies for soliciting feedback and input from everyone in the district or school prior to the final determination of the Priority Standards, and detailed summaries of the process. Schools in six different districts used to identify their Priority Standards, with accompanying commentary by those who directed the work.
