A Book About Love Jonah Lehrer, 2017-07-25

Weaving together scientific studies from clinical psychologists longitudinal studies of health and happiness historical accounts and literary depictions child rearing manuals and the language of online dating sites Jonah Lehrer's *A Book About Love* plumbs the most mysterious most formative most important impulse governing our lives Love confuses and compels us and it can destroy and define us It has inspired our greatest poetry defined our societies and our beliefs and governs our biology From the way infants attach to their parents to the way we fall in love with another person to the way some find a love for God or their pets to the way we remember and mourn love after it ends this book focuses on research that attempts even in glancing ways to deal with the long term and the everyday The most dangerous myth of love is that it's easy that we fall into the feeling and then the feeling takes care of itself While we can easily measure the dopamine that causes the initial feelings of falling in love the partnerships and devotions that last decades or longer remain a mystery This book is about that mystery Love Lehrer argues is not built solely on overwhelming passion but fascinatingly on a set of skills to be cultivated over a lifetime

Waiting for the End Earl G. Ingersoll, 2007 *Waiting for the End* examines two dozen contemporary novels within the context of a half century of theorizing about the function of ending in narrative That theorizing about ending generated a powerful dynamic a quarter century ago with the advent of feminist criticism of masculinist readings of the role played by ending in fiction Feminists such as Theresa de Lauretis in 1984 and more famously Susan Winnett in her 1991 PMLA essay *Coming Unstrung* were leading voices in a swelling chorus of theorist pointing out the masculinist bias of ending in narrative With the entry of feminist readings of ending it became inevitable that criticism of fiction would become gendered through the recognition of difference transcending a simple binary of female male to establish a spectrum of masculine to feminine endings regardless of the sex of the writer Accordingly *Waiting for the End* examines pairs of novels one pair by Margaret Atwood and one by Ian McEwan to demonstrate how a writer can offer endings at either end of the gender spectrum
