Birnes, Joel Martin, 2013-12-17 In this companion volume to *The Haunting of America* and *The Haunting of Twentieth Century America* national bestselling authors William J Birnes and Joel Martin explore today's intellectual and spiritual awakening one that is challenging traditional belief systems Birnes and Martin show that though many governments deny the importance of a spiritual component to national policy even the most conservative governments have based social and financial policy decisions on a profound belief in the existence of the paranormal ghosts and spirits From using psychic spying programs to gather intelligence on enemy nations to investigating the use of mind control to impede the abilities of hostile troops the U S government has continuously developed paranormal weapons and tactics alongside their more mundane counterparts U S Presidents from Franklin Pierce through Ronald Reagan regularly relied on the paranormal using trance mediums channelers and astrologists to help plan agendas and travel schedules *The Haunting of Twenty First Century America* is unlike any American history you will ever read it posits that not only is the paranormal more normal than most people think but that it is driving current events to a new Fourth Culture of the twenty first century At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied **American Torture** Michael Otterman, 2007-03-20 George W Bush calls them an alternative set of procedures vital tools needed to protect the American people and our allies *American Torture* reveals how torture became standard practice in today's War on Terror Tools including being forced standing for up to forty hours sleep deprivation for weeks on end and dousing naked prisoners with ice are undeniably torture and they are used by the United States of America Long before Abu Ghraib became a household name the US military and CIA used torture with impunity at home and abroad Billions of dollars were spent during the Cold War studying refining then teaching these techniques to American interrogators and to foreign officers charged with keeping Communism at bay This book writes the history of these methods and their invention and adoption by US military personnel

LeoGrande,2009-11-18 In this remarkable and engaging book William LeoGrande offers the first comprehensive history of U S foreign policy toward Central America in the waning years of the Cold War From the overthrow of the Somoza dynasty in Nicaragua and the outbreak of El Salvador s civil war in the late 1970s to the final regional peace settlements negotiated a decade later he chronicles the dramatic struggles in Washington and Central America that shaped the region s destiny For good or ill LeoGrande argues Central America s fate hinged on decisions that were subject to intense struggles among and within Congress the CIA the Pentagon the State Department and the White House decisions over which Central Americans themselves had little influence Like the domestic turmoil unleashed by Vietnam he says the struggle over Central America was so divisive that it damaged the fabric of democratic politics at home It inflamed the tug of war between Congress and the executive branch over control of foreign policy and ultimately led to the Iran contra affair the nation s most serious political crisis since Watergate **The Oxford Handbook of Sound and Imagination** Mark Grimshaw,Mark
