Today more than a million students are being educated at home and that figure increases at a rate of 7 14% annually Homeschooling is a growing trend in our society and public librarians are being called upon with increasing frequency to serve the needs of homeschooled students So just what are the needs of the homeschooled teen and how can you and your library meet those needs A former young adult librarian and a homeschool parent have joined forces to create this insightful guide and answer that question After reviewing the developmental and social needs of teens the authors demonstrate how those needs may be met in the public library setting You ll find a wealth of ideas for adapting every facet of your library service for this growing population from developing a homeschool collection to expanding services and creating special programs You ll also find suggestions on how to market what your library has to offer to homeschoolers You may even discover some new ways to employ the talents and time of these students and their families Extensive resource lists conclude the volume they will help you better serve home educated teens and their parents **HIV/AIDS in Young Adult Novels**

Melissa Gross, Annette Y. Goldsmith, Debi Carruth, 2010-10-11 Not long after becoming public health concerns in the 1980s HIV and AIDS were featured in a number of works of fiction though such titles were written primarily for adult readers Mirroring the disease s indiscriminate nature however the subject would soon be incorporated into novels aimed at young adults Despite a need for accessible information on the subject it is difficult to identify fiction that contains material about HIV AIDS as these books are seldom catalogued for this content nor is this content consistently acknowledged in published reviews In HIV AIDS in Young Adult Novels An Annotated Bibliography the authors address this gap by identifying and assessing the full range of young adult novels that include HIV AIDS content This resource is comprised of two major parts The first part summarizes findings from a content analysis performed on novels written for readers aged 11 19 published since 1981 and featuring at least one character with HIV AIDS The second part is an annotated bibliography of the more than 90 novels identified for use in the study Each entry in the bibliography contains an annotation that summarizes the plot and how HIV AIDS is depicted in the story an indication of the accuracy of the HIV AIDS content a note on how central HIV AIDS is to the story and an evaluation of the literary quality of the book This work will assist readers in collecting choosing evaluating and using these works to educate readers about HIV AIDS **Crash Course in Young Adult Services** Sarah
