[Voices of Design Leadership](#) Ken Sanders, 2022-06-09 Voices of Design Leadership Provides inspiration to architecture and design students and professionals through the insights stories and projects of successful design leaders Voices of Design Leadership seeks to educate inform and inspire a new generation of diverse design leaders The work includes sixteen profiles of design leaders in architecture interior design planning and

research many of whom are leaders at firms that have earned the AIA's national Architecture Firm Award. The stories and projects from their own professional journeys illustrate multiple paths to design leadership success. Individually, each person stands on their own as an inspiring and influential design leader. Collectively, they express what design leadership can and should look like. Representing a broad diversity of expertise and demographics including nine women, seven people of color, and five first-generation immigrants, they bring a variety of life experiences and cultural backgrounds to their award-winning work. Sample topics discussed in the work include: The power of diversity; Finding and developing design talent; Design philosophy and research investments; Coaching, mentoring, team collaboration, and community engagement; Advice for emerging design leaders. Students of architecture, engineering, construction, and real estate will find value and inspiration from *Voices of Design Leadership* and gain insight into the thought processes of established leaders in their fields. The work also appeals to young and mid-career professionals, clients, and educators exploring the next steps of their own career journeys.

The Death and Life of Main Street Miles Orvell, 2012-10-01 For more than a century, the term Main Street has conjured up nostalgic images of American small-town life. Representations exist all around us, from fiction and film to the architecture of shopping malls and Disneyland. All the while, the nation has become increasingly diverse, exposing tensions within this ideal. In *The Death and Life of Main Street*, Miles Orvell wrestles with the mythic allure of the small town in all its forms, illustrating how Americans continue to reinscribe these images on real places in order to forge consensus about inclusion and civic identity, especially in times of crisis. Orvell underscores the fact that Main Street was never what it seemed; it has always been much more complex than it appears, as he shows in his discussions of figures like Sinclair Lewis, Willa Cather, Frank Capra, Thornton Wilder, Margaret Bourke White, and Walker Evans. He argues that translating the overly tidy cultural metaphor into real spaces, as has been done in recent decades, especially in the new urbanist planned communities of Elizabeth Plater Zyk and Andres Duany, actually diminishes the communitarian ideals at the center of this nostalgic construct. Orvell investigates the way these tensions play out in a variety of cultural realms and explores the rise of literary and artistic traditions that deliberately challenge the tropes and assumptions of small-town ideology and life.

Animate(d) Architecture Vahid Vahdat, 2024-03-25 At their peak, architectural marvels such as the Sagrada Família, the Tower of London, the Mosque-Cathedral of Córdoba, and the Eiffel Tower had a combined annual visit of almost 16.4 million people. The animated ice-bound castle in Disney's 2019 *Frozen* had 116.4 million views from one single YouTube trailer in less than 24 hours. The spaces of such massively consumed animation have for generations informed the architectural imagination of people across the globe and from very early in their lives. Yet not only have the architectural disciplines remained rather absent in the design of these massively consumed spaces, architectural theory has likewise failed to articulate a framework to approach the architecture of animation. To address this void, this book offers an interdisciplinary approach to survey the role of space in animation, including in creating humorous moments in early cartoon shorts, generating action and suspense in

Japanese anime and even stimulating erotic pleasure in pornographic Hentai Exploring the imagined architecture of animation from early motion picture to digital animation and from computer graphics to game engines offers an analytical frame to reconceptualize space An Open Access version of Yuko Yoshida's chapter Animated Embodiments of Witnessing An Architectural Narrative of Silence is available on the Liverpool University Press website **The Women Who Made Early Disneyland** Cindy Mediavilla, Kelsey Knox, 2024-01-04 Although historians have begun to recognize the accomplishments of Disney Studio's female animators the women who contributed to the early success of Disneyland remain for the most part unacknowledged Indeed in celebrating the park's ten year anniversary in 1965 Walt Disney thanked all the boys who've been a part of this thing even though hundreds of women had also been instrumental in designing building and operating Disneyland since before its grand opening in July 1955 Seeking to reclaim women's place in the early history of Disneyland The Women Who Made Early Disneyland highlights the female Disney employees and contract workers who helped make the park one of the most popular U S destinations during its first ten years Some like artist Mary Blair Imagineers Harriet Burns and Alice Davis Slue Foot Sue Betty Taylor and Disneyland's first ambassador Julie Reihm eventually became Disney legends Others remain less well known including landscape architect Ruth Shellhorn parade choreographer Miriam Nelson Aunt Jemima's Kitchen hostess Alyene Lewis and Tiny Kline who at age seventy one became the first Tinker Bell to fly over Disneyland This one of a kind book examines the lives and achievements of the women who made early Disneyland
