Emergency Medicine and Trauma Ozgur Karcioglu, Muge Eneyli, 2019-10-02 From prehospital evaluation to management in the emergency department Emergency Medicine and Trauma provides easily accessible information on the evaluation diagnosis and management of trauma care Recognition of the multidisciplinary nature and complexity of trauma care especially the philosophy of a teamwork approach must be an integral part of trauma management To help make logical diagnoses and treatment plans you will learn The use of a structured and prioritized approach to critically ill and injured patients according to the clinical need and assessment of acuity level How to establish resuscitation management priorities in a multiply injured patient How to demonstrate the ability to adopt a holistic multidisciplinary biopsychosocial approach to trauma patients The role of the emergency department and its staff in major incidents to understand planning and be prepared for major incidents This book is designed not only for emergency medical providers but also for medical students

Forging a Poison Prevention and Control System Institute of Medicine, Board on Health Promotion and Disease Prevention, Committee on Poison Prevention and Control, 2004-08-16 Poisoning is a far more serious health problem in the U S than has generally been recognized It is estimated that more than 4 million poisoning episodes occur annually with approximately 300 000 cases leading to hospitalization The field of poison prevention provides some of the most celebrated examples of successful public health interventions yet surprisingly the current poison control system is little more than a loose network of poison control centers poorly integrated into the larger spheres of public health To increase their effectiveness efforts to reduce poisoning need to be linked to a national agenda for public health promotion and injury prevention Forging a Poison Prevention and Control System recommends a future poison control system with a strong public health infrastructure a national system of regional poison control centers federal funding to support core poison control activities and a national poison information system to track major poisoning epidemics and possible acts of bioterrorism This framework provides a complete system that could offer the best poison prevention and patient care services to meet the needs of the nation in the 21st century
