Defending Black Faith Answers To Tough Questions About African American Christianity:

Defending Black Faith Craig S. Keener, Glenn Usry, 2009-09-20 Craig Keener and Glenn Usry's highly acclaimed Black Man's Religion showed in impressive detail that Christianity and Afrocentricity can go together. Now they turn to specific nitty gritty questions put to the black church by non Christians. Is everything good in Christianity plagiarized from traditional African religions? Isn't it intolerant to say Christ is the only way to God? Is the Bible reliable? What about criticisms of Christianity made by the Nation of Islam? Keener and Usry meet these and other important questions head on providing responses relevant to and especially for black men and women.

Colossians and Philemon (Word and Spirit Commentary on the New Testament) Holly Beers, 2025-02-25 The Spirit who inspired the authors of the New Testament is at work today around the globe as evidenced by the explosive growth of pentecostal charismatic and renewalist movements. The number of adherents is now estimated at more than half a billion. There is a clear need for a balanced affordable and accessible commentary series aimed at Christians who identify as Spirit filled. The Word and Spirit Commentary on the New Testament series emphasizes how we listen alongside ancient audiences for the Spirit's voice in our time and contexts. Written by pastorally sensitive biblical scholars from the Spirit filled tradition, these commentaries explore how God works in the biblical texts and how Christians can expect God to work today even if in new or culturally surprising ways. Series editors are Holly Beers, Westmont College and Craig S. Keener, Asbury Theological Seminary. In this addition to the series, respected New Testament scholar Holly Beers engages Colossians and Philemon in their ancient setting and explores their message for Spirit filled Christians today. Images, illustrations and sidebars on pentecostal charismatic revival history or insights are included.

Anti-Colonialism and Education, 2006-01-01 There is a rich intellectual history to the development of anti colonial thought and practice. In discussing the politics of knowledge production, this collection borrows from and builds upon this intellectual tradition to offer understandings of the macro political processes and structures of education delivery e.g. social organization of knowledge, culture, pedagogy and resistant politics. The contributors raise key issues regarding the contestation of knowledge as well as the role of cultural and social values in understanding the way power shapes everyday relations of politics and subjectivity. In reframing anti colonial thought and practice, this book reclaims the power of critical oppositional discourse and theory for educational transformation. *Anti Colonialism and Education: The Politics of Resistance* includes some of the most current theorizing around anti colonial practice, written specifically for this collection. Each of the essays extends the terrain of the discussion of what constitutes anti colonialism. Among the many discursive highlights is the interrogation of the politics of embodied knowing, the theoretical distinctions and connections between anti colonial thought and post colonial theory, and the identification of the particular lessons of anti colonial theory for critical educational practice. Essays explore such key issues as the challenge of articulating anti colonial thought as an epistemology of the colonized, anchored in the indigenous sense of collective and common colonial consciousness, the conceptualization of power.
