Cogic Official Manual:

Never Forget! Robert R Owens,2002 Women in the Church of God in Christ Anthea Butler,2012-01-01 The Church of God in Christ COGIC an African American Pentecostal denomination founded in 1896 has become the largest Pentecostal denomination in the United States today In this first major study of the church Anthea Butler examines the religious and social lives of the women in the COGIC Women s Department from its founding in 1911 through the mid 1960s She finds that the sanctification or spiritual purity that these women sought earned them social power both in the church and in the black community Offering rich lively accounts of the activities of the Women s Department founders and other members Butler shows that the COGIC women of the early decades were able to challenge gender roles and to transcend the limited responsibilities that otherwise would have been assigned to them both by churchmen and by white dominated society The Great Depression World War II and the civil rights movement brought increased social and political involvement and the Women s Department worked to make the sanctified world of the church interact with the broader American society More than just a community of church mothers says Butler COGIC women utilized their spiritual authority power and agency to further their contestation and negotiation of gender roles in the church and beyond **The Ballad of "Blind" Willie**

Johnson Shane Ford,2025-05-30 In 1977 when the Voyager deep space probes were launched on their journey into interstellar space they each carried a gold record containing music from a wide variety of cultures Of the four selections of American music chosen one was a recording of Texas street evangelist Blind Willie Johnson s haunting gospel song Dark Was the Night Cold Was the Ground Despite Johnson s recording taking its place among the works intended to represent human culture to the cosmos his life has long remained shrouded in anonymity and conjecture Like many African American musicians in the segregated South of the early twentieth century he managed a precarious existence that hardly lent itself to extensive documentation Now after intensive research both in the field and in archives across the region author Shane Ford fills in many of the blanks in what may be known or deduced about the life of a musician whose work he describes as transcendent Along the way he corrects the many errors that have arisen around Johnson and his career errors that have unfortunately been repeated so often that they have come to be accepted as fact Beginning with the earliest roots of the blues amid the moans and field hollers of enslaved persons and proceeding with imagination and meticulous regard for the available albeit sparse documentation of the life of the artist Ford paints a picture of Blind Willie Johnson and his times that allows us to perceive him in greater detail than ever before The Ballad of Blind Willie Johnson offers readers a deeper appreciation of one of the most unique voices in the history of American music **Jesus, Jobs, and Justice** Bettye

Collier-Thomas,2013-12-20 Originally published New York Alfred A Knopf c2010 Bishop Charles H. Mason in the Age of Jim Crow Elton H. Weaver III,2020-11-17 Bishop Charles H Mason in the Age of Jim Crow profiles the life and career of Charles Harrison Mason Mason was the founder of the Church of God in Christ COGIC which from its Memphis roots grew

into the most significant black Pentecostal denomination in the United States with profound theological and political ramifications for poor and working class black Memphians Bishop Charles H Mason in the Age of Jim Crow is grounded in the history of the Jim Crow era The book traces the origins of COGIC in Memphis it reveals just how Mason s new black Pentecostal denomination grew gained social and political power and earned a permanent place in Memphis s black religious pantheon This book tells how a son of slaves transformed a rural migrant movement into an urban phenomenon how unusual religious demonstrations exemplified infrapolitical religious protests and how these rituals of resistance changed black lives and helped strengthen and sustain blacks fighting for freedom in segregated Memphis The author reveals why Charles H Mason was an important pre civil rights religious leader who laid the groundwork for integrated churches **African**

Randolph,2023-04-28 The purpose of this book seeks to examine the leadership of the Black church through a critical and theoretical lens utilizing historical and anthropological foci to better identify and understand some of the challenges within the paramount institution and its attrition to the Black American community at large and provide appropriate suggestions and generating frameworks for addressing the challenges The church has always played a pivotal role in Black American culture s identity development and progression Leadership and organizational challenges within the church pervasively matriculate to other Black spaces historically Black organizations and a broader societal context Due to the church s historical and ethnographic context for Blacks in America many of the challenges faced in the church go unrecognized unspoken thus unattended This manuscript endeavors to identify the challenges and flaws through research and data to provide solutions through practical and theoretical implementations to some shortcomings for the betterment of the church and culture The interconnectedness of culture and religion for Blacks in America established a gargantuan impact factor on the church and its leaders This manuscript examines the pervading effects of the influence through leadership dispensation It also explores the understanding of leadership through the lens of Black Christianity deriving that the foundation of leadership in the Black community was primarily circumscribed by the influence of the church as conglomerate collectivism

of almost five hundred years of the history and culture of Africans African descendants and members of the African diaspora in what is now America who contributed to the ideal of the Black church The critical analysis provided is not one of condemnation but likened to a vital performance review through member experiences barred against applicable leadership and organizational development barometers

Divine Callings Richard N. Pitt, 2012-02 One of the unique aspects of the religious profession is the high percentage of those who claim to be called by God to do their work This call is particularly important within African American Christian traditions Divine Callings offers a rare sociological examination of this markedly understudied phenomenon within black ministry Richard N Pitt draws on over 100 in depth interviews with Black Pentecostal ministers in the Church of God in Christ both those ordained and licensed and those aspiring to examine how these men and women experience and pursue the call Viewing divine calling as much as a social process as it is a spiritual one Pitt delves into the personal stories of these individuals to explore their work as active agents in the process of fulfilling their calling In some cases those called cannot find pastoral work due to gender discrimination lack of clergy positions and educational deficiencies Pitt looks specifically at how those who have not obtained clergy positions understand their call exploring the influences of psychological experience the congregational acceptance of their call and their response to the training process He emphasizes how those called reconceptualize clericalism in terms of who can be called how that call has to be certified and what those called are meant to do offering insight into how social actors adjust to structural constraints

Flaming? Alisha Lola Jones, 2020-06-09 Male centered theology a dearth of men in the pews and an overrepresentation of queer males in music ministry these elements coexist within the spaces of historically black Protestant churches creating an atmosphere where simultaneous heteropatriarchy and real masculinity anxieties archetypes of the alpha male preacher the effeminate choir director and homo antagonism are all in play The flamboyant male vocalists formed in the black Pentecostal music ministry tradition through their vocal styles gestures and attire in church services display a spectrum of gender performances from hyper masculine to feminine masculine to their fellow worshippers subtly protesting and critiquing the otherwise heteronormative theology in which the service is entrenched And while the performativity of these men is characterized by cynics as flaming a similar musicalized fire that of the Holy Spirit moves through the bodies of Pentecostal worshippers endowing them religio culturally physically and spiritually like fire shut up in their bones Using the lenses of ethnomusicology musicology anthropology men s studies queer studies and theology *Flaming The Peculiar Theo Politics of Fire and Desire in Black Male Gospel Performance* observes how male vocalists traverse their tightly knit social networks and negotiate their identities through and beyond the worship experience Author Alisha Jones ultimately addresses the ways in which gospel music and performance can afford African American men not only greater visibility but also an affirmation of their fitness to minister through speech and song

Down by the Riverside Larry George Murphy, 2000-11 An introductory overview of the development of African American religion and theology *Down by the Riverside* provides an

expansive introduction to the development of African American religion and theology Spanning the time of slavery up to the present the volume moves beyond Protestant Christianity to address a broad diversity of African American religion from Conjure Orisa and Black Judaism to Islam African American Catholicism and humanism This accessible historical overview begins with African religious heritages and traces the transition to various forms of Christianity as well as the maintenance of African and Islamic traditions in antebellum America Preeminent contributors include Charles Long Gayraud Wilmore Albert Raboteau Manning Marable M Shawn Copeland Vincent Harding Mary Sawyer Toinette Eugene Anthony Pinn and C Eric Lincoln and Lawrence Mamiya They consider the varieties of religious expression emerging from migration from the rural South to urban areas African American women s participation in Christian missions Black religious nationalism and the development of Black Theology from its nineteenth century precursors to its formulation by James Cone and later articulations by black feminist and womanist theologians They also draw on case studies to provide a profile of the Black Christian church today This thematic history of the unfolding of religious life in African America provides a window onto a rich array of African American people practices and theological positions
