Parasocial Romantic Relationships Riva Tukachinsky Forster, 2021-05-05 Parasocial Romantic Relationships Falling in Love with Media Figures explores how why and to what effect individuals develop romantic feelings toward people they know from the media These imaginary one sided relationships dubbed parasocial romantic relationships are both profound and pervasive Riva Tukachinsky Forster argues These relationships can take many forms including adolescents who develop celebrity crushes on popular music artist anime enthusiasts who marry their favorite characters and fanfiction authors who insert themselves into narratives as romantic interests of the protagonist Through analysis of surveys in depth interviews and historical examples this book advances our understanding of parasocial romantic relationships on both a sociocultural and a psychological level The data and theories analyzed offer insights into how individuals can become romantically engaged with people they do not actually know some of whom may not even exist in reality Ultimately Tukachinsky Forster argues that although these relationships exist only in the mind of consumers they serve important psychological functions across different stages of life and can lead to significant consequences for individuals nonmediated relationships Scholars of media studies communication psychology and sociology will find this book particularly useful

Communication Competence Annegret F. Hannawa, Brian H. Spitzberg, 2015-10-16 Almost everything that matters to humans is derived from and through communication Just because people communicate every day however does not mean that they are communicating competently In fact evidence indicates that there is a substantial need for better interpersonal skills among a significant proportion of the populace Furthermore dark side experiences in everyday life abound and features of modern society pose

new challenges that make the concept of communication competence increasingly complex The Handbook of Communication Competence brings together scholars from across the globe to examine these various facets of communication competence including its history its essential components and its applications in interpersonal group institutional and societal contexts The book provides a state of the art review for scholars and graduate students as well as practitioners in counseling developmental health care educational intercultural and human resource management contexts illustrating that communication competence is vital to health relationships and all collective human endeavors Handbook of Interpersonal Communication Gerd Antos,Eija Ventola,2008-12-10 Interpersonal communication IC is a continuous game between the interacting interactants It is a give and take a continuous dynamic flow that is linguistically realized as discourse as an on going sequence of interactants moves Interpersonal communication is produced and interpreted by acting linguistically and this makes it a fascinating research area The handbook Interpersonal Communication examines how interactants manage to exchange facts ideas views opinions beliefs emotion etc by using the linguistic systems and the resources they offer In interpersonal communication the fine tuning of individuals use of the linguistic resources is continuously probed The language used in interpersonal communication enhances social relations between interactants and keeps the interaction on the normal track When interaction gets off the track linguistic miscommunication may also destroy social relationships This volume is essentially concerned with this fine tuning in discourse and how it is achieved among various interactant groups The volume departs from the following fundamental questions How do interpersonal relations manifest themselves in language What is the role of language in developing and maintaining relationships in interpersonal communication What types of problems occur in interpersonal communication and what kind of strategies and means are used to solve them How does linguistically realized interpersonal communication interact with other semiotic modes Interpersonal communication is seen and researched from the perspective of what is being said or written and how it is realized in various generic forms The current research also gives attention to other semiotic modes which interact with the linguistic modes It is not just the social roles of interactants in groups the possible media available the non verbal behaviors the varying contextual frames for communication but primarily the actual linguistic manifestations that we need to focus upon when we want to have a full picture of what is going on in human interpersonal communication It is this linguistic perspective that the volume aims to present to all researchers interested in IC The volume offers an overview of the theories methods tools and resources of linguistically oriented approaches e g from the fields of linguistics social psychology sociology and semiotics for the purpose of integration and further development of the interests in IC Topics e g Orientation to interaction as primarily linguistically realized processes Expertise on theorizing and analyzing cultural and situational contexts where linguistic processes are realized Expertise on handling language corpora Expertise on theorizing and analyzing interaction types as genres Orientation to an integrated view of linguistic and non linguistic participant activities and of how interactants generate

meanings and interact with space Expertise on researching the management of the linguistic flow in interaction and its successfulness
