Disability and the Life Course Mark Priestley,2001-07-05 Disability and the Life Course first published in 2001 explores the global

experience of disability using a novel life course approach The book explores how disabling societies impact on disabled people's life experiences and highlights the ways in which disabled people have acted to take more control over their own lives It provides a unique combination of analysis policy issues and autobiography offering the reader a rare opportunity to make links between the theoretical the political and the personal in a single volume The material is set in a truly international context with contributions from thirteen different countries bringing together established and emerging writers both disabled and non disabled The book bridges some important gaps in the existing disability literature by including issues relevant to disabled people of all ages and with different kinds of impairments and also by offering a unique analysis of the relationship between disability and generation in a changing world

Rethinking Disability Patrick Devlieger, Beatriz Miranda-Galarza, Steven E. Brown, Megan Strickfaden, 2016-06-15 The act of life is a lived experience common and unique that ties each of us to every other lived experience The fact of disability does not alter this fundamental truth In this edition of *Rethinking Disability World Perspectives in Culture and Society* we are presented with a system of thinking that considers the values of disability as a resource as a creative source of culture that moves disability out of the realm of victimized people and insurmountable barriers and provides opportunities to use the experience of disability to enter into networks that recognize strengths of differing abilities The authors within will intrigue you will move you will charm you but always will challenge your notion of sameness and difference as they confront the construct and de construct of disability and ableism They present compelling arguments for viewing disABILITY through the multiple lenses of disability culture They explore themes and issues that transcend past and origins time and place nuances of genetics to experiences of present and becoming and towards the future and beyond mere human yet always intrinsically connected to being human This book is intended for all audiences who dare to confront difference and sameness within themselves and in connection with others to inspire researchers who wish to explore and examine disability across social cultural and economic barriers It is an invitation to push away the barriers bring ableism inside to a place where the prosthesis is no longer the elephant in the room

Theology and Down Syndrome Amos Yong, 2007 While the struggle for disability rights has transformed secular ethics and public policy traditional Christian teaching has been slow to account for disability in its theological imagination Amos Yong crafts both a theology of disability and a theology informed by disability The result is a Christian theology that not only connects with our present social medical and scientific understanding of disability but also one that empowers a set of best practices appropriate to our late modern context Publisher description

concern Her unflinching challenges to the status quo expressed both optimism and realism about life and society Her life is testament to the power of Solitary Courage Between 1986 and 1999 she was the only newspaper columnist in North America regularly writing about disability issues Through her award winning column Disabled Today in Toronto's Sunday Sun Mona Winberg painstakingly built up a body of work of more than 600 articles chronicling front line battles for equality She was a realist a wise person with a no nonsense approach kindly but clear eyed Solitary Courage begins with the story of Mona Winberg's life followed by a representative selection of 156 of her columns organized into 20 thematic chapters the best of Mona in her own words The last part of the book reflects upon Mona Winberg's legacy of lessons that still connect to programs and policies touching the lives of Canadians with disabilities today The subjects are wide ranging and engaging because Mona used personal examples of individuals with disabilities and news making issues raised by their plight She also reported on the street level outcomes of government policies This variety and approach to disability issues provides real education and genuine human interest whatever a reader's background or experience

The Audacity of Inclusion Dulcie McCallum, 2024-10-04 One beautiful surprisingly warm spring morning on the isolated islands of Haida Gwaii an insight smacked Dulcie McCallum in the face with the force of an unexpected tsunami at the heart of it all the law was the culprit Rather than promoting rights the law was itself the taproot of injustice For people with an intellectual disability the law is what defines their disadvantage not their disability For every child diagnosed with the label of intellectual disability there remains a certain lousy predictability to the way they will be treated by society and the prejudice that will haunt them Officially labelled with the r word they have also been tagged with imbecile or moron Often treated as objects of pity or charity segregated in special schools sheltered workshops and institutions they are consigned to the sidelines of society Their erasure as full persons reached unimaginable heights during eugenics which led to systemic sterilization and en masse extermination But fear is warranted as pervasive victimization remains a threat Their intentional exclusion has done and continues to do inestimable damage The Audacity of Inclusion will crack open the vault of injustices perpetrated against people who have an intellectual disability helping shatter preconceptions and opening new ways of seeing people who are forced to live with a legally sanctioned label In telling their stories Dulcie had the support and wisdom of self advocates Canadians Barb Goode Harold Barnes and Sir David Weremy and New Zealander the late Sir Robert Martin each of whom made invaluable contributions

Deinstitutionalising Women Kelley Johnson, 1998-10-13 An ethnographic study of deinstitutionalisation explores the lives of women with intellectual disabilities
