Le droit des entreprises en difficulté en schémas Hélène

Poujade, Sophie Sabathier, 2025-07-01. L'objectif de la collection Le droit en schémas est de proposer des ouvrages facilitant la compréhension et la mémorisation des questions juridiques. Chaque question est ainsi envisagée selon deux approches juxtaposées : le cours traditionnel en page de gauche des schémas explicatifs en page de droite. Très didactique, ces manuels ont été conçus à partir de trois choix méthodologiques : la mise en avant des distinctions fondamentales, la reprise des mêmes problèmes sous des angles différents, un effort de mise en perspective afin de faciliter la réflexion et la compréhension des continuités et des ruptures. Cet ouvrage s'adresse aux étudiants en Master de Droit, aux candidats au concours d'accès au CRFPA, aux praticiens.

Current Issues in European Financial and Insolvency Law Wolf-Georg Ringe, Louise Gullifer, Philippe Théry, 2009-06-02

Recent case law and legislation in European company and insolvency law have significantly furthered the integration of European business regulation. In particular, the case law of the European Court of Justice and the introduction of the EU Insolvency Regulation have provided the stimulus for current reforms in various jurisdictions in the fields of insolvency and financial law. The UK, for instance, has adopted the Enterprise Act in 2002 designed inter alia to enhance enterprise and to strengthen the UK's approach to bankruptcy and corporate rescue. In a similar vein, a recent reform in France has modernised French insolvency law and even introduced a tool similar to the successful English company voluntary arrangement (CVA). This book provides a collection of studies by some of the leading English and French experts today analysing current perspectives of insolvency and financial law in Europe, both on the national as well as on the European level.

Treatment of Contracts in Insolvency Dennis Faber, 2013. This book provides detailed analysis of the effect of

insolvency on contractual obligations and relationships in the main commercially significant jurisdictions.

Proceedings of the 3rd International Conference of Economics and Management (CIREG 2016) Volume I Houcine Berbou, Aziz Fassouane, Mustapha Belaisaoui, 2020-04-06. This book brings together papers presented at the 3rd Conference of Research in Economics and Management (CIREG) held in Morocco in May 2016. With a focus on the challenges of SMEs and innovative solutions, they highlight the contribution of researchers in the fields of business and management with all their micro and macro-economic aspects. They shed light on the universal scientific vision of the importance of SMEs with answers relevant to their local context and adapted to their specific national situation. The relevance of SME research lies in its heuristic value of analyzing change rather than in constructing a category, a particularly useful empirical concept. This first volume is focused on economic issues.
