Development Under Adversity The Palestinian Economy In Transition:

Development Under Adversity Ishac Diwan, Ra'wfn ?Al? Sha'b?n, 1999-01-01 War border closures violence and unemployment have hampered the Palestinian economy for over a decade Despite these obstacles and setbacks the future outlook is optimistic Based on the research of the Palestine Economic Policy Research Institute MAS the World Bank and other organizations Development Under Adversity reviews the development of the Palestinian economy since the 1993 Declaration of Principles The Palestinian economy has enormous potential Its general development indicators including life expectancy literacy and child mortality rates are among the best in the Middle East and North Africa The book identifies the conditions under which the Palestinian economy can grow They include trade channels that reduce the economy's reliance on Israel the creation of a more efficient civil service more investment oriented public expenditure and more resourceful support from NGOs in the delivery of health education welfare and infrastructure services Development Under Adversity provides historical background an objective examination of recent economic and political developments and a comprehensive analysis of the contribution that the donor community can make toward alleviating poverty Throughout its analysis the book focuses on the human consequences of economic uncertainty It studies the social and household costs of border closures and includes complete chapters about the education and health sectors The result is a book that will be relevant to a wide range of institutional and private lenders as well as to anyone with a general interest in the well being and future of the Palestinian economy *Development Under Adversity?* Ma'had Abhath al-Siyasat al-Iqtisadiyyah al-Filastinia, World Bank, Jami'at al-Najah al-Wataniyyah (Nablus), Markaz Rashshad al-Shawwa al-Thakafi (Gaza), 1997 **The Palestinian Economy and the Oslo Process** Sara Roy, 1998-09-29 The foundations for a viable self sustaining Palestinian economy have not emerged since the start of the Oslo peace process Economic conditions in the Gaza Strip and West Bank have deteriorated markedly leaving the Palestinian economy weaker now than it was in 1967 when measured against the advances made by other states in the region The reasons for Palestinian economic decline are many but turn on one key issue Israeli closure policy Closure restricts the movement of labor and goods and distorts rational economic activity Now a permanent feature of the local economy closure has resulted in the physical and economic separation of the West Bank and Gaza Strip and their separation from Israel high unemployment permanent unemployment for a growing segment of the labor force a doubling of poverty levels increasing child labor constrained trade relations and a growing need for relief and social assistance among Palestinians Closure has devastated Palestinian economic growth and reform and has made it increasingly difficult for people to meet their basic needs If closure continues to be enforced the economic and political changes promised by the Oslo agreements and now so desperately needed in the West Bank and Gaza will not be possible The Political Economy of Aid in Palestine Sahar Taghdisi-Rad, 2010-10-04 This book examines the nature of donor operations in Palestine and questions the viability of aid as an instrument of economic development in conflict zones It highlights the political and ideological

determinants of aid allocation and effectiveness arguing that aid to Palestine cannot bring about significant improvement as long as the Palestinian economy is fundamentally affected by Israeli occupation settlement and blockade *International Assistance to the Palestinians After Oslo* Anne Le More, 2008-03-31 Based on original academic research and first hand evidence this book explores the interface between politics and international assistance within the context of the Israeli Palestinian conflict and peace process after 1993 to the present day

A Critical Political Economy of the Middle East and North Africa Joel Beinin, Bassam Haddad, Sherene Seikaly, 2020-12-22 This book offers the first critical engagement with the political economy of the Middle East and North Africa Challenging conventional wisdom on the origins and contemporary dynamics of capitalism in the region these cutting edge essays demonstrate how critical political economy can illuminate both historical and contemporary dynamics of the region and contribute to wider political economy debates from the vantage point of the Middle East Leading scholars representing several disciplines contribute both thematic and country specific analyses Their writings critically examine major issues in political economy notably the mutual constitution of states markets and classes the co constitution of class race gender and other forms of identity varying modes of capital accumulation and the legal political and cultural forms of their regulation relations among local national and global forms of capital class and culture technopolitics the role of war in the constitution of states and classes and practices and cultures of domination and resistance Visit politicaleconomyproject.org for additional media and learning resources

Palestinian Labour Migration to Israel Leila Farsakh, 2005-09-06 Leila Farsakh provides the first comprehensive analysis of the rise and fall of Palestinian labour flows to Israel Highlighting the interdependence between Israel's confiscation of Palestinian land and the use of Palestinian labour she shows how migration has been the result of evolving dynamics of Israeli occupation and the reality of Palestinian labour force growth This study analyzes the pattern of Palestinian labour supply the role of Israel's territorial and economic policies in the Occupied Territories in releasing Palestinian labour from the land and the nature of Israeli demand for Palestinian workers especially in the construction sector where the majority of commuting labourers are concentrated New light is shed on the growth of illegal Israeli settlements in the West Bank and Gaza Strip which are being built by Palestinian workers Palestinian Labour Migration to Israel is original in its analysis of the contrasting forces of separation and the integration between Israel and the Palestinian territories showing that the changing patterns in labour flows reflect a process of redefinition of the 1967 borders It will be of valuable interest to economists and development specialists as well as to scholars policy makers and all those concerned with the Palestinian Israeli conflict

The IMF, World Bank and Policy Reform Alberto Paloni, Maurizio Zanardi, 2012-10-12 The debate on whether or not the International Monetary Fund and World Bank and their intervention strategies are a positive force for change in the developing world continues to rage Featuring both macroeconomic and microeconomic approaches this book brings together an international team of contributors and centres upon three broad themes the ideology of the IMF and World Bank poverty

reduction conditionality In exploring these themes this book will be a valuable reference for postgraduate students and professionals in the fields of development studies and political economy *Israel's Colonial Project in Palestine* Elia Zureik, 2015-11-19 Colonialism has three foundational concerns violence territory and population control all of which rest on racist discourse and practice Placing the Zionist project in Israel Palestine within the context of settler colonialism reveals strategies and goals behind the region's rules of governance that have included violence repressive state laws and racialized forms of surveillance In *Israel's Colonial Project in Palestine Brutal Pursuit* Elia Zureik revisits and reworks fundamental ideas that informed his first work on colonialism and Palestine three decades ago Focusing on the means of control that are at the centre of Israel's actions toward Palestine this book applies Michel Foucault's work on biopolitics to colonialism and to the situation in Israel Palestine in particular It reveals how racism plays a central role in colonialism and biopolitics and how surveillance in all its forms becomes the indispensable tool of governance It goes on to analyse territoriality in light of biopolitics with the dispossession of indigenous people and population transfer advancing the state's agenda and justified as in the interests of national security The book incorporates sociological historical and postcolonial studies into an informed and original examination of the Zionist project in Palestine from the establishment of Israel through to the actions and decisions of the present day Israeli government Providing new perspectives on settler colonialism informed by Foucault's theory and with particular focus on the role played by state surveillance in controlling the Palestinian population this book is a valuable resource for students and scholars interested in the Arab Israeli Conflict and Colonialism *Out of the Ashes* James J. Fox, Dionisio Babo-Soares, 2003-11-01 A collection of essays that examine the historical background to developments in East Timor and provide political analysis on the initial reconstruction stage in the country's transition to independence
