Courtroom Psychology And Trial Advocacy:

Courtroom Psychology and Trial Advocacy Richard Waites, 2003 An invaluable resource for experienced trial attorneys inexperienced trial attorneys looking to advance to the next level of trial practice and corporate counsel who handle litigation this book looks at the role courtroom psychology plays in modern trial practice It covers the essentials of trial practice including jury selection opening and closing statements and questioning witnesses as well as the key aspects of arbitration hearings and mediations But what makes this book different from basic trial advocacy primers is its attention to the results of decades of scientific research relating to courtroom psychology or persuasion psychology This area concerns how and why jurors judges and arbitrators make decisions and how they are influenced This book examines the role persuasion psychology plays in modern trial practice and how lawyers can use it to their advantage The Science of Attorney Advocacy , 2012 Successful advocacy approaches are essential for the practice of law Lawyers law professors judges and other legal commentators have offered numerous recommendations for how trial lawyers can persuade juries including techniques in verbal and nonverbal communication attorney demeanor and so forth These recommendations have been put into trial practice handbooks and are frequently taught in law schools as part of the trial advocacy curriculum However they often rely on popular assumptions or intuition rather than social and behavioral science Research is needed to differentiate intuition and speculation from scientific proof of efficacy This book fills this critical gap by reviewing the scientific support for popular advocacy recommendations It first summarizes trial commentators recommendations then reviews the scientific support for these recommendations and finally evaluates the recommendations in light of the scientific support Research is culled from not only trial and simulated trial settings but also other social and behavioral settings Topics include attorney demeanor verbal and nonverbal communications the attorney client relationship and storytelling narrative techniques This book will appeal to researchers in psychology communications linguistics and other social sciences as well as trial commentators and practicing attorneys Publicity materials PsycINFO Database Record c 2012 APA all rights reserved **Courtroom Psychology for Trial Lawyers** Thomas Sannito, Peter J.
