

MODEL NO. TP46 TRACTOR PLANTER

WITH DROPPING SHAFT
ASSEMBLY

A tractor mounted combination planter and fertilizer distributor for drilling seeds between two equal but separate streams of fertilizer. The planter uses the original hill-drop principle of cotton planting developed by Mr. W. F. Covington, Sr. Replacement of the cotton dropping attachment by an inclined-plate grain attachment converts the planter to a versatile unit for drilling corn, grain, peanuts, peas, beans and many other seeds.
