W Segal, S. F. Chipman, R. Glaser, 2014-06-03 First Published in 1985 This is Volume 1 on Relating Instruction to Research borne from a conference that took place at the Learning Research and Development Center LRDC of the University of Pittsburgh one of the major research and development centers The chapters are structured into sections on cognitive skills into three groups intelligence and reasoning knowledge acquisition and problem solving Each chapter in these volumes was especially requested to fulfill a particular function      *Spontaneous Cognitive Processes in Handicapped Children* Miriam Cherkes-Julkowski, Nancy Gertner, 2012-12-06 The thinking that began this book arose out of some dissatisfaction with the relatively simplified unidimensional model of development which seems to have come to dominate the fields that address the needs of atypically developing children It seemed impossible to us that developmental differences could explain the range of learning and coping styles we have seen and read about in children identified as mentally retarded slow learning learning disabled nonhandicapped and gifted If a typical model of development did not account for what children with handicaps to learning could do when they would do it and how they would accomplish it such a model was not likely to imply anything important about how to intervene with and help them Unfortunately when we first began to examine this problem turning away from a developmental model for interpreting atypical behavior meant turning toward a behaviorist one This was not very satisfying either Again the assumptions were bothersome We were expected to accept that all children this time at all ages as well as with all kinds of diagnoses learned in essentially the same way with perhaps some variation in rate reactivity reinforcement preferences and according to more liberal applications expectancy In our search for a more satisfying view of

the atypical learner we were lucky to be lost at the moment when cognitive psychology and systems theory were being found
