Rationality and the Reflective Mind Keith Stanovich, 2011-02-03 In this book Keith Stanovich attempts to resolve the Great Rationality Debate in cognitive science the debate about how much irrationality to ascribe to human cognition Stanovich shows how the insights of dual process theory and evolutionary psychology can be combined to explain why humans are sometimes irrational even though they possess cognitive machinery of remarkable adaptiveness Using a unique individual differences approach Stanovich shows that to fully characterize differences in rational thinking the traditional System 2 of dual process theory must be partitioned into the reflective mind and the algorithmic mind Using a new tripartite model of mind Stanovich shows how rationality is a more encompassing construct than intelligence when both are properly defined and that IQ tests fail to assess individual differences in rational thought Stanovich discusses the types of thinking processes that would be measured in an assessment of rational thinking
